Hijacking The Runway:

Hijacking the Runway Teri Agins, 2014-10-09 A fascinating chronicle of how celebrity has inundated the world of fashion realigning the forces that drive both the styles we covet and the bottom lines of the biggest names in luxury apparel From Coco Chanel's iconic tweed suits to the miniskirt's surprising comeback in the late 1980s fashion houses reigned for decades as the arbiters of style and dictators of trends Hollywood stars have always furthered fashion's cause of seducing the masses into buying designers clothes acting as living billboards Now forced by the explosion of social media and the accelerating worship of fame red carpet celebrities are no longer content to just advertise and are putting their names on labels that reflect the image they or their stylists created Jessica Simpson Jennifer Lopez Sarah Jessica Parker Sean Combs and a host of pop sports and reality show stars of the moment are leveraging the power of their celebrity to become the face of their own fashion brands embracing lucrative contracts that keep their images on our screens and their hands on the wheel of a multi billion dollar industry And a few celebrities like the Olsen Twins and Victoria Beckham have gone all the way and reinvented themselves as bonafide designers Not all celebrities succeed but in an ever more crowded and clamorous marketplace it's increasingly unlikely that any fashion brand will succeed without celebrity involvement even if designers like Michael Kors have to become celebrities themselves Agins charts this strange new terrain with wit and insight and an insider's access to the fascinating struggles of the bold type names and their jealousies insecurities and triumphs Everyone from industry insiders to fans of Project Runway and America's Next Top Model will want to read Agins's take on the glitter and stardust transforming the fashion industry and where it is likely to take us next *The End of Fashion* Adam Geczy, Vicki Karaminas, 2018-11-01 Attitudes to fashion have changed radically in the twenty first century Dress is increasingly approached as a means of self expression rather than as a signifier of status or profession and designers are increasingly treated as artists as fashion moves towards art and enters the gallery museum and retail space This book is the first to fully explore the causes and implications of this shift examining the impact of technological innovation globalization and the growth of the internet The End of Fashion focuses on the ways in which our understanding of fashion and the fashion system have transformed as mass mediation and digitization continue to broaden the way that contemporary fashion is perceived and consumed Exploring everything from the rise of online shopping to the emergence of bloggers as power elites who have revolutionized the terrain of traditional fashion reportage this volume anatomizes a world in which runway shows now compete with live streaming digital fashion films Instagram and Pinterest Bringing together original cutting edge contributions from leading international scholars this book is essential reading for students and scholars of fashion and cultural studies as well as anyone interested in exploring the dramatic shifts that have shaken the fashion world this century and what they might say about larger changes within an increasingly global and digital society *A Real Tale of the Hijack* (1981) Umesh Saxena, 2018-04-26 An aeroplane of a scheduled flight hits an Army truck on landing at night It is seized by 44
