A Global Approach to Public Interest Disclosure David B. Lewis, 2010-01-01 In this book David Lewis brings together leading international experts to address the state of whistleblowing law and policy in America, Europe, Australia and South Africa. As well as outlining recent changes to whistleblowing laws and reporting, major whistleblower studies, the contributors mount convincing criticisms of current laws and suggest some significant reforms. This book will provoke new thinking among those who view whistleblowing as an important practice as well as those who are sceptical about its value in organizational life. Rodney Smith, The University of Sydney, Australia. This timely and important book assesses the impact of legislation on public interest disclosures internationally as well as setting an agenda for future research on whistleblowing. Combining both theoretical and practical methods, this unique book offers a detailed examination of some of the key statutory provisions in the UK and explores the way courts have interpreted them. The expert contributors compare the UK model with the different approaches taken in Australia, the US as well as the rest of Europe and focus on the lessons that can be learned from the current practice of whistleblowing. They evaluate the contents and application of confidential reporting, whistleblowing procedures and draw upon significant empirical research. This book will be of great interest to academics, postgraduate students, practitioners and policymakers in the fields of employment law, human resource management, business ethics and corporate governance.      *Joseph Henry Blackburne* Tim Harding, 2015-08-13 During a career spanning more than 50 years, J. H. Blackburne (1841–1924) won the British Chess Championship and several international tournaments at his peak, becoming one of the world's top three chess masters. A professional player who derived his livelihood from annual tours of chess clubs in England and other countries, entertaining and teaching amateur players, he astonished his contemporaries by the ease with which he played the game without sight of the chessboard. At 21 he set a world record for such exhibitions, competing against 12 club players simultaneously, and he continued to perform blindfold into his sixties. This first comprehensive biography of Britain's greatest chess player of the 19th and early 20th centuries presents more than 1,000 of

Blackburne's games chronologically including all his surviving games from serious competition annotated in varying detail. Many are masterpieces containing beautiful combinations and instructive endgame play. Blackburne's unusual family and social background are fully explored.
