Approaches to

Inclusive English Classrooms Kate Mastruserio Reynolds,2015-03-02 This book provides educators with an accessible guide to best practices concerning content based instruction CBI models and their use in English learner inclusive classrooms The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K 12 general education courses The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so looking at the difficulties faced by both general educators and ESL teachers in Inclusive Classrooms By providing a lens through which both ESL teachers and general educators are able to analyze compare and contrast a range of widely employed CBI methods this book allows teachers to make informed decisions in their EL program development and work with English learners in K 12 schools

Meeting the Challenges of Existential Threats through Educational Innovation Herner

Saeverot,2021-11-22 Meeting the Challenges of Existential Threats through Educational Innovation is the first book of its kind to provide an educational and systematic analysis of problems and solutions regarding the most pressing threats that humankind is facing The book makes a case for the importance of education responding to significant threats including climate change pandemics decline in global biodiversity overpopulation egoism ideologies nuclear biological and chemical warfare inequality artificial intelligence and ignorance and the distortion of truth Written by leading experts in their field based on cutting edge research the chapters explore these issues and offer suggestions for how education can address these problems in the future This groundbreaking and highly topical book will be an essential reading for academics researchers and post graduate students in the fields of education research environmental studies educational politics and organizational management

History, Methodology and Identity for a 21st Century Social Economics Wilfred Dolfsma,D. Wade

Hands,Robert McMaster,2019-05-28 This book seeks to advance social economic analysis economic methodology and the history of economic thought in the context of twenty first century scholarship and socio economic concerns Bringing together carefully selected chapters by leading scholars it examines the central contributions that John Davis has made to various areas of scholarship In recent decades criticisms of mainstream economics have rekindled interest in a number of areas of scholarly inquiry that were frequently ignored by mainstream economic theory and practice during the second half of the twentieth century including social economics economic methodology and history of economic thought This book contributes

to a growing literature on the revival of these areas of scholarship and highlights the pivotal role that John Davis's work has played in the ongoing revival. Together the international panel of contributors show how Davis's insights in complexity theory, identity and stratification are key to understanding a reconfigured economic methodology. They also reveal that Davis's willingness to draw from multiple academic disciplines gives us a platform for interrogating mainstream economics and provides the basis for a humane yet scientific alternative. This unique volume will be essential reading for advanced students and researchers across social economics, history of economic thought, economic methodology, political economy and philosophy of social science.
