Maya Hieroglyphs Study Guide:

Translating Maya Hieroglyphs Scott A.J. Johnson, 2013-06-24 Maya hieroglyphic writing may seem impossibly opaque to beginning students but scholar Scott A J Johnson presents it as a regular and comprehensible system in this engaging easy to follow textbook The only comprehensive introduction designed specifically for those new to the study Translating Maya Hieroglyphs uses a hands on approach to teach learners the current state of Maya epigraphy Johnson shows readers step by step how to translate ancient Maya glyphs He begins by describing how to break down a Mayan text into individual glyphs in the correct reading order and then explains the different types of glyphs and how they function in the script Finally he shows how to systematically convert a Mayan inscription into modern English Not simply a reference volume Translating Maya Hieroglyphs is pedagogically arranged so that it functions as an introductory foreign language textbook Chapters cover key topics including spelling dates and numbers basic grammar and verbs Formal linguistic information is accessibly explained while worksheets and exercises complement and reinforce the material covered in the text Glyph blocks and phrases drawn from actual monuments illustrate the variety and scribal virtuosity of Maya writing The Maya writing system has not been fully deciphered Throughout the text Johnson outlines and explains the outstanding disputes among Mayanists At the end of each chapter he offers sources for further reading Helpful appendices provide quick reference to vocabulary glyph meanings and calendrical data for students undertaking a translation The study of Maya glyphs has long been an arcane subject known only to a few specialists This book will change that Taking advantage of the great strides scholars have made in deciphering hieroglyphs in the past four decades Translating Maya Hieroglyphs brings this knowledge to a broader audience including archaeologists and budding epigraphers

Maya Narrative Arts Karen Bassie-Sweet, Nicholas A. Hopkins, 2019-01-15 In *Maya Narrative Arts* authors Karen Bassie Sweet and Nicholas A Hopkins present a comprehensive and innovative analysis of the principles of Classic Maya narrative arts and apply those principles to some of the major monuments of the site of Palenque They demonstrate a recent methodological shift in the examination of art and inscriptions away from minute technical issues and toward the poetics and narratives of texts and the relationship between texts and images Bassie Sweet and Hopkins show that both visual and verbal media present carefully planned narratives and that the two are intimately related in the composition of Classic Maya monuments Text and image interaction is discussed through examples of stelae wall panels lintels benches and miscellaneous artifacts including ceramic vessels and codices Bassie Sweet and Hopkins consider the principles of contrast and complementarity that underlie narrative structures and place this study in the context of earlier work proposing a new paradigm for Maya epigraphy They also address the narrative organization of texts and images as manifested in selected hieroglyphic inscriptions and the accompanying illustrations stressing the interplay between the two Arguing for a more holistic approach to Classic Maya art and literature *Maya Narrative Arts* reveals how close observation and reading can be equally if not more productive than theoretical discussions which too often stray from the very data that they attempt to elucidate The book will be significant for Mesoamerican art historians epigraphers linguists and archaeologists
