

5 Stations for Ratio & Rate

Grades 5-8

Math stations are a great way to get students engaged as they move about the room and work collaboratively with their peers.

But they are a lot of work to prepare!

This ready-to-go set of 5 stations will supplement a unit about **ratios and rates**.

Station 1: Students solve four word problems using ratios and rates.

(optional: set out white boards for students to use)

Station 2: Students explore ratios in designs and draw and describe their own design.

Station 3: Students match equivalent ratios and rates of different kinds to solve a riddle.

(optional: set out laptops or tablets for the online game extension)

Station 4: Students plan a summer road trip & think of all the ratios and rates they need to use!

(supplies needed: access to the internet for research)

Station 5: Students create a visual representation of a given percentage using ratios, fractions, decimals, diagrams, and equivalence. See sample:

(supplies needed: 6-sided dice)
