"Tax"

-The government can decrease tax in order to make sure that people have money to spend on goods and services.

"Government spending"

- When government spend more on public goods and services it will lead to increased demand for goods and services.

2. Monetary policy

-It is the use of interest rate and other instruments in order to influence money supply.

"Interest rate"

-The reserve bank will reduce the interest rate in order to encourage people to borrow more money from banks.

-When access to credit is more cheaper people will buy more goods and services which is an increase in demand.

"Cash reserve requirements"

-The reserve bank will decrease the percentage cash reserves it requires from commercial banks.
