**THE POKER BOOK** Pearleen Harvey,2013-10 There are many other poker games I could write another volume on the wild card games alone Basically the play is similar to the popular games so far discussed Any good player will soon figure a new game to his advantage Never get into a game that is new to you and play for high stakes You could lose a fortune until you have the game analyzed My greatest single contribution to your success as a poker player is the advice and knowledge about chicanery in a large majority of poker games This was not written in this way to make a story It is a fact After many and varied associations with hustlers both profitable and otherwise I have formed an unshakable opinion 99 percent are the dregs of humanity They would steal or cheat their own mothers Honor and principle are words that have no meaning to them Of all associations only two ever proved trustworthy These two are my friends to this day And I am a friend of theirs Anything I have they can have They are the same with me The others they would borrow money never intending to pay back They may hide the money that was to be split then claim we never won that amount Many a good paying partnership was broken off by me for these reasons The greedy hustlers lost more by being left out of the action than was ever gained by chiseling me If ever a hustling operation is exposed you may bet your family jewels some jealous hustler has a finger of suspicion on it Consequently by my exposing the many and varied means of bilking the public I do not believe I am doing harm to any deserving segment of society This is my way of relieving my conscience for taking advantage of the very few of you who deserve sympathy Perhaps in some measure I can return your losses by passing on the kind of information that will save or make money for you in the future After all if you are equally informed who has the advantage **Fate and Free Will** Heath White,2019-11-30 In Fate and Free Will Heath White explores and defends a traditional view of God s relationship to creation that has in recent years fallen out of favor White argues that theological determinism the idea that God is directly responsible for every detail of history and existence is relevant to concepts such as human responsibility freedom and justice the meaning

of life and theodicy Defending theological determinism from the perspective of traditional orthodox Christianity White clarifies this view positions it within scripture and argues positively for it through considerations about divine attributes and via the idea of an ex nihilo creation White addresses objections to theological determinism by presenting nuanced and insightful counterarguments He asserts that theological determinism does not undermine practices of criminal punishment destroy human responsibility render life meaningless or hinder freedom While the book does not attempt to answer every dilemma concerning evil or hell it effectively grapples with them To make his case for theological determinism White relies on theories of free will moral responsibility and a meaningful life He uses clear commonsense language and vivid illustrations to bring to light the conditions of meaning and purpose in our lives and the metaphysics of God's relationship to the world This original book will appeal to the philosophical community as well as students and scholars of theology
