**Towards Deeper Learning in Primary CLIL** Fay Chen, 2025-03-04 Chen proposes a disciplinary literacy DL approach to Content and Language Integrated Learning CLIL planning and teaching in her book in answer to concerns expressed by some about the growth of CLIL internationally in recent decades The concerns regarding CLIL schools circle around the feasibility of the policy particularly regarding the challenges of teaching and learning new subject content in an additional language in primary education In response the author tackles the fundamental questions surrounding CLIL implementation with a focus on fostering deeper learning using examples from the Taiwanese context The chapters delve into the key planning issues in primary education CLIL and explore the language teaching awareness of CLIL teachers in various subject areas In addition to proposing a DL approach the book also discusses the necessity for teachers awareness of subject specific literacies in curriculum planning highlighting the importance of scaffolding primary students to achieve deeper learning in CLIL classrooms As a whole Chen stimulates discourse and research in CLIL planning and teaching thereby informing CLIL teacher education This book is an essential read for researchers and research students interested in deeper learning and bilingual and multilingual education programs It is also a viable resource for teacher educators and teachers who teach in multilingual programs and primary education

**An Age of Accountability** John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to

major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

*Understanding Trajectories and Promoting Change From Early to Complex Skills in Typical and Atypical Development: A Cross-Population Approach* Alessandra Sansavini, Annalisa Guarini, Melissa Libertus, Klaus Libertus, Mariagrazia Benassi, Jana Iverson, 2021-03-30     **Neuro-cognitive Architecture of Numerical Cognition and Its Development** Elise

Klein, Korbinian Moeller, Reuven Babai, Anja Ischebeck, 2021-06-29     The Data-Driven School Daniel M. Hyson, Joseph F. Kovalski, Benjamin Silberglitt, Jason A. Pedersen, 2020-07-10 This indispensable practitioner's guide helps to build the capacity of school psychologists administrators and teachers to use data in collaborative decision making It presents an applied step by step approach for creating and running effective data teams within a problem solving framework The authors describe innovative ways to improve academic and behavioral outcomes at the individual class grade school and district levels Applications of readily available technology tools are highlighted In a large size format for easy photocopying the book includes learning activities and helpful reproducible forms The companion website provides downloadable copies of the reproducible forms as well as Excel spreadsheets PowerPoint slides and an online only chapter on characteristics of effective teams This book is in The Guilford Practical Intervention in the Schools Series edited by Sandra M Chafouleas     Mental State Understanding: Individual Differences in Typical and Atypical Development Daniela Bulgarelli, Anne Henning, Paola Molina, 2017-09-13 The current book addresses the development of mental state understanding in children with typical and atypical population and reports new suggestions about the way to evaluate it and to support it through training The presented frame is multifaceted In respect to typical populations the role of maternal reflective functioning language communication and educational contexts has been deepened and the association with internalizing externalizing behaviors performances in spatial tasks and pragmatics has been addressed as well As to atypical populations deficits in mental states understanding are reported for children with different developmental disorders or impairments as the agenesis of the corpus callosum Down Syndrome preterm birth Autism Spectrum Disorder hearing impairment and personality difficulties such as anxiety Overall the papers collected in our book allow a better understanding of the mechanisms influencing mental state understanding and the effects of mental state comprehension on development     Frontiers in the Acquisition of Literacy Claire M. Fletcher-Flinn, 2015-09-28 Learning to read and to spell are two of the most important cultural skills that must be acquired by children and for that matter anyone learning a second language We are not born with an innate ability to read A reading system of mental representations that enables us to read must be formed in the brain Learning to read in alphabetic

orthographies is the acquisition of such a system which links mental representations of visual symbols letters in print words with pre existing phonological sound and semantic comprehension cognitive systems for language Although spelling draws on the same representational knowledge base and is usually correlated with reading the acquisition processes involved are not quite the same Spelling requires the sequential production of letters in words and at beginning levels there may not be a full degree of integration of phonology with its representation by the orthography Reading on the other hand requires only the recognition of a word for pronunciation Hence spelling is more difficult than reading and learning to spell may necessitate more complete representations or more conscious access to them The learning processes that children use to acquire such cognitive systems in the brain and whether these same processes are universal across different languages and orthographies are central theoretical questions Most children learn to read and spell their language at the same time thus the co ordination of these two facets of literacy acquisition needs explication as well as the effect of different teaching approaches on acquisition Lack of progress in either reading and or spelling is also a major issue of concern for parents and teachers necessitating a cross disciplinary approach to the problem encompassing major efforts from researchers in neuroscience cognitive science experimental psychology and education The purpose of this Research Topic is to summarize and review what has been accomplished so far and to further explore these general issues Contributions from different perspectives are welcomed and could include theoretical computational and empirical works that focus on the acquisition of literacy including cross orthographic research

**Child Development at the Intersection of Race and SES**, 2019-07-10

Child Development at the intersection of Race and SES Volume 57 in the Advances in Child Development and Behavior series presents theoretical and empirical scholarship illuminating how race ethnicity and socioeconomic status intersect to shape children s development and developmental contexts Important chapters in this new release include the Implications of Intersecting Socioeconomic and Racial Identities for Academic Achievement and Well being The home environment of low income Latino children Challenges and opportunities Profiles of race ethnicity and socioeconomic status Implications for ethnic racial identity discrimination and sleep Youths sociopolitical perceptions and mental health Intersections between race class and gender and much more Rather than focusing on the additive effects of race ethnicity and SES which is typical and a limitation in the developmental literature the scholarship in this book considers how the factors and processes shaping the development of children of color can differ markedly across the socioeconomic continuum This collection illustrates how applying an intersectional lens to developmental science can yield unique insights into the challenges confronting and assets buoying both minority and majority children s healthy development Includes contributions from renowned developmental scholars working at the forefront of their fields Presents a multidisciplinary focus that will be useful to developmental psychologists sociologists family scientists and those whose interests and work fall under the purview of those disciplines Examines multiple dimensions and factors shaping childhood development

*The Meritocracy Trap* Daniel

Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people      Knowledge, Service, Tourism & Hospitality Ford Lumban Gaol,Fonny Hutagalung,Abd Razak Zakaria,Zuwati Binti Hasim,2016-04-05 This proceedings volume contains papers presented at the 2015 International Conference on Management and Technology in Knowledge Service Tourism Hospitality SERVE 2015 covering a wide range of topics in the fields of knowledge and service management web intelligence tourism and hospitality This overview of current state of affair      *Federal Register* ,2013-11      **Building a Curious School** Bryan Goodwin,2020-03-19 Unleash the power of curiosity and the joy of learning Curiosity is hardwired in all of us but the longer students stay in school the less curious they become Why is that Building a Curious School uncovers the many subtle ways in which formal education seems to hinder our natural curiosity and reveals how rekindling a sense of wonder in schools can prime the pump for learning foster a culture of engagement grow better educational leaders and prepare students and staff to lead more fulfilling lives Grounded in research this engaging examination of curiosity shows educators how to intentionally cultivate inquisitiveness and wonder in teaching and learning It includes A plethora of activities ideas and tips to encourage curiosity Compelling examples of curiosity at work in schools businesses and communities Tools for supporting curiosity in ways that spark meaningful conversations and promote empathy equity and social emotional learning If you ve ever wondered anything really just out of curiosity then you ve got what it takes to lead your school to restored curiosity and your students to wellbeing and success This book lays out a vision as to the way schools can and should be approached to
