School Mathematics Curricula Catherine P. Vistro-Yu, Tin Lam Toh, 2019-04-26

This book sheds light on school mathematics curricula in Asian countries including their design and the recent reforms that have been initiated. By discussing and analyzing various problematic aspects of curriculum development and implementation in a number of East and South Asian countries and offering insights into these countries' unique approaches to supplementing school mathematics curricula, it contributes to shaping effective policies for implementation, assessment and monitoring of curricula. The book covers a wide range of issues: curriculum design, localization of curricula, directions of curricular reforms, mathematics textbooks, assessment within the curriculum and teachers' professional development, which are of interest to a wide international audience.

Values and Valuing in Mathematics Education Philip Clarkson, Wee Tiong Seah, JeongSuk Pang, 2019-04-24

This engaging open access book discusses how a values and valuing perspective can facilitate a more effective mathematics pedagogical experience and allows readers to explore multiple applications of the values perspective across different education systems. It also clearly shows that teaching mathematics involves not only reasoning and feelings but also students' interactions with their cultural setting and each other. The book brings together the work of world leaders and new thinkers in mathematics educational research to improve the learning and teaching of mathematics. Addressing themes such as discovering hidden cultural values, a multicultural society and methodological issues in the investigation of values in mathematics, it stimulates readers to consider these topics in cross cultural ways and offers suggestions for research and classroom practice. It is a valuable resource for scholars of mathematics education from early childhood through to higher education and an inspiring read for all mathematics teachers.

High School Graduation Avis Glaze, Ruth Mattingley, Rob Andrews, 2013-06-28

High impact strategies to improve student outcomes. Based on first hand experiences from one of the world's fastest improving school systems, this comprehensive resource provides concrete, detailed and research based tools with particular attention to learning progressions. Scaffolded instruction and leadership strategies promote early and sound foundations in literacy and numeracy, build pathways to close achievement gaps and emphasize character and citizenship development among other strategies to improve graduation rates. You'll also find a multi-pronged approach that includes state, district and school level action points, sample tools and templates for planning and self assessment. Lessons learned from schools that have successfully implemented strategies.
