The Math Pact, Elementary Karen S. Karp, Barbara J. Dougherty, Sarah B. Bush, 2020-09-19 A school wide solution for students mathematics success Do you sometimes start to teach a mathematics

concept and feel like you're staring at a sea of bewildered faces. What happens when you discover students previously learned a calculation trick or a mnemonic that has muddled their long-term understanding? When rules seem to change from year to year, teacher to teacher, or school to school, mathematics can seem like a disconnected mystery for students. Clear up the confusion with a Mathematics Whole School Agreement. Expanded from the highly popular Rules that Expire series of NCTM articles, this essential guide leads educators through the collaborative, step-by-step process of establishing a coherent and consistent learner-centered and equitable approach to mathematics instruction. Through this work, you will identify, streamline, and become passionate about using clear and consistent mathematical language, notations, representations, rules, and generalizations within and across classrooms and grades. Importantly, you'll learn to avoid rules that expire—tricks that may seem to help students in one grade but hurt in the long run. Features of this book include abundant grade-specific examples, effective working plans for sustainability, barrier-busting tips to do and try it out, practical templates and checklists, PLC prompts and discussion points. When teachers unite across grades, students hit the ground running every year. Take the next step together as a team and help all your students build on existing understanding to find new success and, most importantly, love learning and doing mathematics.

Curious George - Literature Kit Gr. 1-2

Marie-Helen Goyetche, 2007-05-01. Students explore their curious nature with a monkey named George. Students think a little deeper about the story by imagining the motivations behind the man in the yellow hat. Find different words that rhyme with the words in the story. Come up with different adjectives used in the book, then write a new sentence using these words. Answer multiple-choice questions about George's adventures. Students share their own opinions about taking animals out of their natural habitats. Write a list of safety rules for George to follow so he can stay safe and out of trouble. Students share their feelings about certain events that happen in the story with a My Feelings graphic organizer. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz, and answer key are also included. About the Novel: A well-loved story about a curious little monkey named George who is caught in his home land of Africa by a man in a yellow hat. Inspired by his curiosity for the world around him, George has one adventure after another from the time he leaves Africa to the time he finally arrives at the Zoo. George tries to fly like the sea gulls, but this only gets him wet. He dials 1 2 3 4 5 6 7, which is the number for the Fire Department. He takes a man's balloons and starts flying through the air over the city's traffic. At the end of the story, George finally ends up in a tree at the Zoo. It was a nice place to live.
