Wise, 2016-06-10 MathWise books are different from most math workbooks for students Math textbooks and workbooks typically have a mini lecture at the beginning of each lesson and then have pages of problems Students often get impatient with the explanations and have difficulty knowing how to proceed to work the problems The format looks dry and boring and students lose interest MathWise Integers teaches integer addition subtraction through the Same Sign Rule and the Opposite Sign Rule but also through visual manipulatives traditional horizontal number lines elevator style number lines and counters The rules visual manipulatives and the problems themselves are designed to strengthen mathematical reasoning Additional concepts include substitution with integers negative one as a sign switcher integer multiplication division fact families with integers basic inequalities multiplication

with negative fractions negative numbers with exponents and absolute value Concept Quizzes are used throughout to test review students conceptual knowledge of integers MathWise workbooks are unique in that they give interactive instruction as students are working on math problems Speech bubbles give insights hints and observations in measured doses not all at once so that students don't lose attention or get overloaded Answer frames foster good technique they ensure that students solve problems in steps and show their work Number sense and sound mathematical thinking are emphasized throughout In addition to learning the concepts students develop power with numbers and understand how and why math works the way it does These books are skill specific not grade specific Challenge problems are sprinkled throughout the books to stretch students thinking and to help them grow in their problem solving skills MathWise books can be used to supplement any curriculum They can be used for remediation with higher grades and they can be used for enrichment with lower grades They can also be used to pre teach concepts or to review material that was previously presented Students often say that the MathWise books helped them to really understand the material for the first time The layout explanations tips and tricks sequence of instruction and mathematical connections presented in these books all contribute to the success of the curriculum The material in the MathWise books took over 14 years to create and design These books have been used tested and critiqued in the classroom for over a decade

Striving To Improve Series: Integers Mirella Trimboli

(Ed.), 2018-03-01 The Striving to Improve Series targets students who for whatever reason are struggling to keep up with their peers The activities in the books are designed to prevent students from regressing any further at school The tasks are based on a modified curriculum so that students can work at their own pace and without constant supervision from the teacher This book Integers is focused on the Number and Algebra Strand of the Australian Curriculum for lower ability students and those who need further opportunity to consolidate these core areas in mathematics The section entitled Understanding Integers enables students to reenounter ideas of place value rounding estimation factors multiples and the concept of a directed number The section entitled Calculating With Integers walks students through the four core calculations Students explore addition and subtraction with two and three digit sums and can apply what they have learned to some real life application problems Similarly students explore the various levels of multiplication and division before applying them to a variety of applications Each section provides students with the opportunity to consolidate written and mental methods of calculation with an emphasis on process and understanding The activities can be used for individual students needing further consolidation in a mainstream classroom or as instructional worksheets for a whole class of lower ability students The activities are tied to Curriculum Links in the Australian Curriculum ranging from grade levels of Year 4 through to Year 7 and are appropriate for students requiring extra support in Years 7 8 and 9
