Seeking Science-Friendly Christianity Harwood Hoover,2023-11-17 This book brings together lessons from three journeys The first journey began with my acceptance of Jesus at a young age together with my growing recognition of the differences between the scriptural record and scientific understanding It continued with a young man s adventure a retreat into nature and an encounter with war War and life s darker side convinced me that even as nature brings awe and opens us to religious experience we need morality The second journey began as I inquired into the ministry When the church transferred the guide they had assigned to me Bob Wessman became my mentor Bob was an ordained pastor with a doctorate in theology For twenty years we read and discussed theology including the Catholic ideas that I had discovered while teaching with the Dominican Sisters Bob is in hospice care as I write this and my library is full of the books that he gifted to me Thank you Bob I now had many ideas from my first two journeys but they floated about in my head without an organizing form The challenge was to find a form that would allow the ideas to come together and speak in harmony Differences between Scripture and science had troubled me since my youth and I could not ignore science It was simply too good at finding truth to ignore So science would have to help me Science cannot touch all that religion touches but science and technology can be in correspondence with theology Researching and writing this book could explore that relationship The result was to have remained personal but then I thought that a reader might find an idea or two useful A person who is literate in science might see why trusting Jesus is both good and reasonable This book is the story of the third journey an odyssey through science and Christian theology

Shamanic Christianity Bradford Keeney,2006-03-13 A guide to reconnecting with Jesus Mary and the saints as shamanic teachers of divine

mysteries Contains meditations contemplations parables and active ritual tasks that help bring forth a shamanic understanding and practice of Christianity Shows shamanic experience to be the root of mystical communion When the missionaries came to North America to save the American Indians they were perplexed to discover that while they talked about Jesus some of the Indians claimed to talk directly with him Among Christians there is almost complete silence on the subject of the place of shamanism in experiencing the divine yet shamanic experience is at the root of all mystical communion Shamanic Christianity offers a chance to rekindle the shamanic practices of Christianity to those who wish to restore their direct connection to the spirit world In the tradition of contemplative practice this reconnection takes the form of devotions Presented in four forms these devotions begin with a specific contemplation followed by a meditative focus then a parable from the author s own visionary experiences and finally an active mystical practice to help ground the meditations and contemplations in a ritual or ceremony that involves active participation These four forms serve to reintroduce Jesus Mary and the historically renowned saints as shamanic teachers of divine mysteries whose spiritual presence is readily available to contemporary lives The author also presents specific directives for handling everyday challenges in a shamanic inspired manner drawing upon creative activities and resources that encourage approaching the world with the imaginative and playful spirit of a child whose personal freedom and creative expression is always wide open to possibilities

Secularism and Religion-Making Markus Dressler, Arvind Mandair, 2011-10-03 This book conceives of religion making broadly as the multiple ways in which social and cultural phenomena are configured and reconfigured within the

matrix of a world religion discourse that is historically and semantically rooted in particular Western and predominantly Christian experiences knowledges and institutions It investigates how religion is universalized and certain ideas social formations and practices rendered religious are thus integrated in and subordinated to very particular mostly liberal secular assumptions about the relationship between history politics and religion The individual contributions written by a new generation of scholars with decisively interdisciplinary approaches examine the processes of translation and globalization of historically specific concepts and practices of religion and its dialectical counterpart the secular into new contexts This volume contributes to the relatively new field of thought that aspires to unravel the thoroughly intertwined relationships between religion and secularism as modern concepts The Underlying Religion Martin Lings, Clinton Minnaar, 2007-07-18 This is an anthology of 25 essays by the leading exponents of the perennialist school of comparative religious thought It aims to be the most accessible introduction yet to the perspective of the Perennial Philosophy *Taking Religion Seriously Across the Curriculum* Warren A. Nord, Charles C. Haynes, 1998 The authors chart a middle course in our war over religion and public education one that builds on a developing national consensus among educational and religious leaders While it is not proper for schools to practice religion or proselytize neither is it permissible to make them religion free zones Schools do not take religion seriously as the authors review of textbooks and the new national content standards makes clear In Part One they outline the civic constitutional and educational frameworks that should shape the treatment of religion in the curriculum and classroom In Part Two they explore major issues relating to religion in different domains of the curriculum in elementary education and in middle and high school courses in history civics economics literature and the sciences They also discuss Bible courses and world religions courses and explore the relationship of religion to moral education and sex education

Manufacturing Religion Russell T. McCutcheon, 1997-06-19 In this new book author Russell McCutcheon offers a powerful critique of traditional scholarship on religion focusing on multiple interrelated targets Most prominent among these are the History of Religions as a discipline Mircea Eliade one of the founders of the modern discipline recent scholarship on Eliade's life and politics contemporary textbooks on world religions and the oft repeated bromide that religion is a sui generis phenomenon McCutcheon skillfully analyzes the ideological basis for and service of the sui generis argument demonstrating that it has been used to constitute the field's object of study in a form that is ahistoric apolitical fetishized and sacrosanct As such he charges it has helped to create departments jobs and publication outlets for those who are comfortable with such a suspect construction while establishing a disciplinary ethos of astounding theoretical naivete and a body of scholarship to match Surveying the textbooks available for introductory courses in comparative religion the author finds that they uniformly adopt the sui generis line and all that comes with it As a result he argues they are not just uncritical which helps keep them popular among the audiences for which they are intended but badly disserve but actively inhibit the emergence of critical perspectives and capacities And on the geo political scale he contends the study of religion as an ahistorical category

participates in a larger system of political domination and economic and cultural imperialism From Primitive to Indigenous James L. Cox,2016-04-22 The academic study of Indigenous Religions developed historically from missiological and anthropological sources but little analysis has been devoted to this classification within departments of religious studies Evaluating this assumption in the light of case studies drawn from Zimbabwe Alaska and shamanic traditions and in view of current debates over primitivism James Cox mounts a defence for the scholarly use of the category Indigenous Religions

Religion and the Domestication of Dissent Russell T. McCutcheon,2016-04-08 Since the events of 9 11 the representation of Islam has increasingly come adrift from its actuality Scholars and pundits have effectively demonised a whole faith by wilfully apportioning blame and by ignoring the differences within the Islamic movement Religion and the Domestication of Dissent examines how the classifications we use to name and negotiate our social worlds notably religion are implicitly political The study ranges widely from contemporary film and art to the War on Terror and will be invaluable to readers interested in the politics behind the portrayal of dissenting religious groups **The Eye of the Heart** Frithjof Schuon,2021-09-07 This new edition of The Eye of the Heart one of perennialist author Frithjof Schuon s earliest works features a fully revised translation from the French original as well as over 50 pages of new material including previously unpublished selections from the author s letters and other private writings Also featured is a foreword by renowned religion scholar Huston Smith an editor s preface extensive editor s notes a glossary of foreign terms and phrases an index and biographical notes Schuon s perspective is that of the sophia perennis or perennial wisdom which is capable of discerning the spiritual intentions behind religious doctrines forms and practices The essays collected here cover a wide range of subjects including the fundamental principles of spiritual symbolism the enigmatic nature of evil questions on the afterlife and many invaluable insights concerning the integration of everyday activities into the spiritual life Schuon also evokes the sacredness of creation and the message of beauty which when seen with the eye of the heart leads back to God *The Skeptical, Passionate Christian* Michael F. Duffy,2006-01-01 In the tone of a much loved college chaplain Duffy takes readers through a personal theological journey exploring what it means to discern and live out a thoughtful informed and responsible faith
