maintenance checks of HVAC systems HVAC technicians should strive to competently handle customer queries in a punctual manner HVAC technicians should also aim to resolve issues with HVAC systems in an expeditious manner People cannot function optimally without having access to functional HVAC systems The occupation of being an HVAC technician does not have optimal working conditions In order to be an HVAC technician a person needs to be able to cope with working in environments with adverse temperatures and cope with performing a substantial amount of strenuous manual labor in uncomfortable working conditions to be able to complete HVAC technician jobs Working as an HVAC technician can also be physically exhausting Working as an HVAC technician can also often be an eminently unpleasant job to endure performing especially when you are working in environments with adverse temperatures for a prolonged period of time and are performing a substantial amount of strenuous manual labor
