Recognizing and Serving Low-Income Students in Higher Education Adrianna Kezar, 2010-09-13 Written for administrators faculty and staff in Higher Education who are working with low income and first generation college students Recognizing and Serving Low Income Students in Higher Education uncovers organizational biases that prevent post secondary institutions from adequately serving these students This volume offers practical guidance for adopting new or revised policies and practices that have the potential to help these students thrive This contributed volume is based on empirical studies that specifically examine the policies and practices of postsecondary institutions in the United States England and Canada The contributing authors argue that discussions of diversity will be enriched by a better understanding of how institutional policies and practices affect low income students Unlike most studies on this topic this volume focuses on institutional rather than federal state and public policy Institutional policies and practices have been largely ignored and this volume lifts the veil on processes that have remained hidden

The State of Financial Literacy and Education in America United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 2003 3 Dimensional Wealth Roey Diefendorf, 2005-06 By today s standards wealth is generally measured by one s financial status In 3 Dimensional Wealth veteran financial advisors Monroe M Diefendorf Jr and Robert Sterling Madden offer a radically sane perspective on wealth that reveals how tangible assets such as money property and possessions are only one aspect of wealth The 3 Dimensional Wealth premise is simple replace preconceived notions of wealth with a more encompassing perspective that includes personal who you are financial what you have and social how you make a difference dimensions for a total measurement of your life The authors reveal how to transition your life from a traditional one dimensional approach concerning wealth to a three dimensional life that has greater significance This self discovery journey will challenge you to strive for a more meaningful existence

Infiltrated: How to Stop the Insiders and Activists Who Are Exploiting the Financial Crisis to Control Our Lives and Our Fortunes Jay W. Richards, 2013-08-02 A growing army of self proclaimed activists philanthropists and politicians has infiltrated not only the Consumer Financial Protection Bureau but the FDIC the Treasury and other regulatory agencies Richards reveals the shocking truth about the latest financial regulations the Dodd Frank Reform Act and the war against free enterprise and what you can do to fight back

Lessons from PFI and other projects Great Britain: National Audit Office, 2011-04-28 Lessons from the experience of using PFI can be applied to improve other forms of procurement and help Government achieve its aim of securing annual infrastructure delivery cost savings of 2 billion to 3 billion To secure the best value for money from all types of procurement the public sector needs to develop skills the NAO has identified These are collecting better data to inform decision making ensuring projects have the right skills establishing effective arrangements to test challenge and if necessary stop projects and using commercial awareness to obtain better deals The case for using private finance in public procurement needs to be challenged more Also privately

financed projects will often still be off balance sheet which may continue to act as an incentive to use PFI There has not been a systematic value for money evaluation of operational PFI projects by departments So there is insufficient data to demonstrate whether the use of private finance has led to better or worse value for money than other forms of procurement The Treasury and departments should identify alternative methods for delivering infrastructure and related facilities services to maximise value for money for government The NAO welcomes the current plans of the Treasury and Cabinet Office to strengthen project assurance The report highlights the need for independent challenge capable of stopping projects which do not give the prospect of value for money This is particularly important as there is still a shortage of the skills needed to manage and oversee complex major projects
