My belief about myself as a learner when I entered the class was a positive one. I attended a college prep school for high school and went to Oregon State University last year. I had plenty of practice with different learning techniques and found what works well for me. I believe I'm more of a visual learner than an auditory learner. It is easier to see a powerpoint and retain the knowledge then listen to a lecture and have the same retention. Entering the class I thought I liked working in groups more than working individually on projects, but that has since changed. I think it is more beneficial to me to work alone because I can get more done. When I entered the class I believed that reading the material closer to the due date was a better idea because I may not remember what I had read if I didn't.

What I have discovered about myself, as a learner over the term is vast. I learned that I can read the material way in advance and just briefly skim over the text and remember just about everything, were as I thought reading closer was more beneficial. I also learned that working in groups really isn't my specialty. I prefer working by myself because I'm able to get a lot more done and not have to worry about other people forgetting their part of the project. I don't like having to worry about other people not following through. I also learned that looking at the daily record in advanced helped me

**The Course Reflection Project** Nicole Schonemann, Emily Metzgar, Andrew Libby, 2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices

*The Humble Essay* Roy K. Humble, 2023-04-01 The Humble Essay is so much more than a writing textbook It gives you tools tips and tricks that actually explain what a writer does It doesn't sugarcoat the process or dumb down the very real challenges that entering a college writing space requires This book is more like a friend It's the kind of friend that will coach you through a tough time and encourage you and it will make you laugh while you go through it It's the kind of friend who holds your hair back when you're sick of writing and gives you the courage to try again Roy K Humble is the kind of writing teacher who understands the struggle of learning how to write like a college student and doesn't just tell you what you want to hear His lessons here are profound but in the sense that they are delivered by someone who wants you to feel included in the conversation about what good college writing should be He writes to students in language they can understand without becoming English majors and with just enough humor to keep them reading He writes for faculty moving step by step through the unadorned guiding principles of effective formal writing so that faculty have a great framework on which to build their classes Perhaps most importantly Humble understands that the price of a book matters to students so his books are affordable From every perspective Humble gets it The Humble Essay has
