

SERVICE BULLETIN

Ford Service Bulletins 1941 - 1948

One mechanic can tighten a bolt as well as another. The greatest difference in mechanics lies in the degree of thoroughness with which they do their work and the logic they use in finding the underlying causes behind the failures they encounter.

The information contained in these bulletins will prove of much value to salesmen, as well as to servicemen.

The opportunity of keeping up with mechanical changes should not be overlooked.
