democracy Building upon the history of universities George Fallis discusses how the multiversity is a distinctive product of the later twentieth century and has become an institution of centrality and power He examines five characteristics of our age the constrained welfare state the information technology revolution postmodern thought commercialization and globalization and in each case explains how the dynamic of multiversity research alters societal circumstances leading to the alteration of the institution itself and creating challenges to its own survival The character of our age demands reappraisal of the multiversity Fallis argues in order to safeguard them from so called mission drift Writing from a multi national perspective this study establishes how similar ideas are shaping multiversities across the Anglo American world Ultimately Multiversities Ideas and Democracy seeks to uncover the ethos of the multiversity and to hold such institutions accountable for their contribution to democratic life It will appeal to anyone interested in the role of education in society

The Prison of Democracy Sara M. Benson, 2019-04-16 At publication date a free ebook version of this title will be available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Built in the 1890s at the center of the nation Leavenworth Federal Penitentiary was designed specifically to be a replica of the US Capitol Building But why The Prison of Democracy explains the political significance of a prison built to mimic one of America's monuments to democracy Locating Leavenworth in memory history and law the prison geographically sits at the borders of Indian Territory 1825 1854 and Bleeding Kansas 1854 1864 both sites of contestation over slavery and freedom Author Sara M Benson argues that Leavenworth reshaped the design of punishment in America by gradually normalizing state inflicted violence against citizens Leavenworth's peculiar architecture illustrates the real roots of mass incarceration as an explicitly race and nation building system that has been ingrained in the very fabric of US history rather than as part of a recent post war racial history The book sheds light on the truth of the painful relationship between the carceral state and democracy in the US a relationship that thrives to this day
