*A Radical Rethinking of Sexuality and Schooling* Eric E. Rofes, 2005 A Radical Rethinking of Sexuality and Schooling Status Quo or Status Queer offers a startling and original critique of unexamined assumptions and liberal notions about sexuality and education in the United States Professor and long time community activist Eric Rofes argues that liberal approaches to gay issues and public schooling are inherently doomed to fail and that a radical approach is needed that addresses core issues of power in education in a meaningful way Tackling issues ranging from anti gay harassment in school to children s literature on gay themes gender performances of teachers to HIV education graduate school programs in education to gay men s sexual cultures Rofes presents a compelling argument for the creation of a second generation of activism focused on queers schools and education one that truly empowers young people and educators and one that has the potential to truly transform power relations in our nation

*Media Messages* Linda Holtzman, 2000 Studies the influence of media messages on the American public looking at the stories and messages conveyed in prime time television shows and in popular films and music and examines methods of analyzing the content and impact of images of gender socioeconomic class race and sexual orientation

*Sex* Richard Joseph Martin, Dieter Haller, 2020-05-27 Focusing on the unacknowledged personal and often unconscious dimension Sex explores the intersection between sex and ethnography Anthropological writing tends to focus on the influence of status markers such as position gender ethnicity and age on fieldwork By contrast far less attention has been paid to how sex sexuality eroticism desire attraction and rejection affect ethnographic research In the book anthropologists reflect on their own encounters with sex during fieldwork revealing how attraction and desire influence the choice of fieldwork subjects field sites and friendships They also examine the resulting impact on fieldwork findings and the generation of knowledge Based on fieldwork in Germany Denmark Greece the USA Brazil South Africa Singapore Turkey Israel Morocco and India the contributors go beyond the common heterosexuality homosexuality divide to address topics which include celibacy polyamory and sadomasochism This long overdue text provides perspectives from a new generation of anthropologists and brings the debate into the 21st century Examining challenging and controversial issues in contemporary fieldwork this is essential reading for students in anthropology gender and sexuality studies sociology research methods and ethics courses

Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example *Counseling the Culturally Different* Sue Handbook of Multicultural Counseling Poterotto et al 2009 and *Handbook of Multicultural Counseling Competencies* Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology *Handbook of Counseling Women* *Counseling Men* with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e.g. focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations **Worldwide Perspectives on Lesbians, Gays, and Bisexuals** Paula Gerber Ph.D., 2021-01-26
