Dwelling in Mobile Times Sybille Frank, Lars Meier, 2019-05-16 In an era of increasing mobilities places of residence are still vital Unlike commuting migrating or travelling dwelling usually evokes at least in modern Western thought the idea of an immobile private place to rest This book explores the places spaces and practices of dwelling in mobile times and considers dwelling under the umbrella of broader transformations in society The manifestations of these transformations are carved out on the level of everyday practices and experiences Bringing together eight case studies from Europe the USA and Asia on subjects such as gentrification homelessness and displaced persons multi local and diasporic lifeworlds professional elites and tourism the book explores various and complex entanglements of mobilities and dwelling in detail In doing so the contributors critically analyse who may be or has to be mobile under which circumstances at present This book thus demonstrates that mobility is more than movement between localities and that to dwell is more than to be at a locality Instead mobilities and dwelling are both shaped and challenged by strong but shifting power relations and are thus deeply contested This book was originally published as a special issue of Cultural Studies

Russians in Iran Rudi Matthee, Elena Andreeva, 2018-01-25 Russians in Iran seeks to challenge the traditional narrative regarding Russian involvement in Iran and to show that whilst Russia's historical involvement in Iran is longstanding it is nonetheless much misunderstood Russia's influence in Iran between 1800 and the middle of the twentieth century is not simply a story of inexorable intrusion and domination rather it is a complex and interactive process of mostly indirect control and constructive engagement Drawing on fresh archival material the contributors provide a window into the power and influence wielded in Iran not just by the Russian government through its traditional representatives but by Russian nationals operating in Iran in a variety of capacities including individuals bankers and entrepreneurs Russians in Iran reveals the multifaceted role that Russians have played in Iranian history and provides an

Central Peripheries Marlene Laruelle ,2021-07-01 Central Peripheries explores post Soviet Central Asia through the prism of nation building Although relative latecomers on the international scene the Central Asian states see themselves as globalized and yet in spite of or perhaps precisely because of this they hold a very classical vision of the nation state rejecting the abolition of boundaries and the theory of the death of the nation Their unabashed celebration of very classical nationhoods built on post modern premises challenges the Western view of nationalism as a dying ideology that ought to have been transcended by post national cosmopolitanism Marlene Laruelle looks at how states in the region have been navigating the construction of a nation in a post imperial context where Russia remains the dominant power and cultural reference She takes into consideration the ways in which the Soviet past has influenced the construction of national storylines as well as the diversity of each state s narratives and use of symbolic politics Exploring state discourses academic narratives and different forms of popular nationalist storytelling allows Laruelle to depict the complex construction of the national pantheon in the three decades since independence The second half of the book focuses on Kazakhstan as the most hybrid national construction and a unique case study of nationhood in Eurasia Based on the principle that only multidisciplinary can help us to untangle the puzzle of nationhood Central Peripheries uses mixed methods combining political science intellectual history sociology and cultural anthropology It is inspired by two decades of fieldwork in the region and a deep knowledge of the region s academia and political environment Praise for Central Peripheries Marlene Laruelle paves the way to the more focused and necessary outlook on Central Asia a region that is not a periphery but a central space for emerging conceptual debates and complexities Above all the book is a product of Laruelle s

Handbook of BRICS and Emerging Economies PB Anand,Shailaja Fennell,Flavio Comim,2020-12-16 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and human development Are inequalities increasing and is this the denouncement of the economic successes Are geo political tensions rising between these nations During the post COVID 19 situation the importance of bilateral and multilateral co operation mechanisms and institutions is becoming clear This book focuses on one such emerging co operation mechanism of BRICS but also more widely on those five countries and other similar economies As a global depression looms large global economic recovery depends on the performance of not only its largest economies but also many other important and significant economies within the so called G20 group Even prior to the COVID 19 outbreak multilateral institutions have been under considerable strain as with the relationship between the United States of America and China and risks to global economic recovery appear very real This book brings together multi disciplinary perspectives from over sixty scholars and it presents a comprehensive and deep dive into the BRICS and emerging economies

and into an understanding the political economic and social contexts that can help in designing approaches for recovery and regaining the last momentum in the journey towards the Sustainable Development Goals
