Allen,2018-03-20 This Pivot offers a comprehensive cross country study of the effects of large scale resource extraction in Asia Pacific considering how large scale extractive industries engender contentious social political and economic questions Addressing the strong association in Melanesia between extractive resource industries and a spectrum of violence ranging from interpersonal to collective forms it questions whether islands are particularly potent spaces for the contentious politics that attend enclave economies The book brings island studies literature into a closer conversation with political and economic geography demonstrating that islands provide rich spaces for the investigation of the socio spatial relations at the heart of human geography s theoretical cannon The book also has a real world policy edge as the sustained and growing dominance of extractive industries in concert with the highly contentious politics that they engender places them at the centre of efforts to understand state formation political reordering and the on going negotiation of political settlements of various types throughout post colonial Melanesia It considers how extractive resource industries can shape processes of state formation shedding new light on Melanesia s resource curse **Handbook of Regional and Urban Economics** Gilles Duranton,Vernon Henderson,William Strange,2015-06-29 Developments in methodologies agglomeration and a range of applied issues have characterized recent advances in regional and urban studies Volume 5 concentrates on these

developments while treating traditional subjects such as housing the costs and benefits of cities and policy issues beyond regional inequalities Contributors make a habit of combining theory and empirics in each chapter guiding research amid a trend in applied economics towards structural and quasi experimental approaches Clearly distinguished from the New Economic Geography covered by Volume 4 these articles feature an international approach that positions recent advances within the discipline of economics and society at large Emphasizes advances in applied econometrics and the blurring of within and between cities Promotes the integration of theory and empirics in most chapters Presents new research on housing especially in macro and international finance contexts

The Life Cycle of Clusters Dirk Fornahl, Robert Hassink, 2017-04-28 One size fits all cluster policies have been rightly criticized in the literature One promising approach is to focus cluster policies on the specific needs of firms depending on the stage of development emergence growth sustainment or decline their cluster is in In this highly insightful book these stage specific cluster policies are analysed and evaluated Moreover several chapters also focus on smart specialization policies to promote regional development by taking into account the emergence and adaptation of clusters and industries

Handbook of Regional Growth and Development Theories Roberta Capello, Peter Nijkamp, 2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field
