

Unit Plan: Short Stories

By: Jennifer Gunter

For: Grade 7 and 8 Students in the English Classroom

Title:

Expression Through Writing: Teaching the Writing Process through Short Stories in the Secondary English Classroom

Overview and Visual Representation:

This unit for the secondary English classroom focuses on the creation and presentation of a short story. The content will include instruction on the elements of a short story, constructing narrative, character development, plot structure, and the effective delivery of peer to peer feedback. Intertwined with these lessons on story writing, there will be discussion of the cultural and social benefits of story writing and telling. We will address skills such as the writing process, peer and personal reflection, and presentation. Assessment will be formative, occur throughout the unit, and be based on a variety of student accomplishments. The culminating activity will be based on peer reading and presentation and will be a celebration of the students' work within the unit.

I would like the unit to be envisioned as a writer's workshop. I intend to intermix lessons about key writing elements, brainstorming, character development, writing, peer feedback, and teacher-student consultation. To encourage this, all students will be given a notebook on the first day of the unit and encouraged to carry it with them all the time. In addition to this, each class will have a large piece of coloured bristol board on the wall where they will post ideas for plot, character sketches (both written and drawn) and any ideas or motivating images. This will be referred to as 'The Class Bulletin Board'. Finally, a class Wiki will be set up and students will be encouraged to contribute to this after each lesson with a sample of their writing or a reflection of what they studied in the class. The Wiki can be found at: <https://dulwichcollegescoulshortstories.wikispaces.com>.

Rationale:

A deeper understanding of story leads to an increased ability to interpret literature and to convey the essential nature of communication throughout human history. The seemingly simple vehicle of the short story promotes the concept of the development of the young writer and the idea that all writing, from fiction to academic discourse, is creative writing. Students will see the value of expressing themselves through writing and see that writing can be used as a vehicle through which to pass on history and beliefs about ethics and morality. It is believed that students will enjoy immersing themselves in the writing process and through this will learn about the value of creativity and of self-expression.

As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
