Grade Boundaries In Gcse 2015

Simon Child, Paul Ellis

Grade Boundaries In Gcse 2015:

The Coalition Effect, 2010-2015 Anthony Seldon, Mike Finn, Ilias Thoms, 2015-03-26 The essential verdict on Britain's first coalition government since the Second World War delivered by an unrivalled team of experts *Education in a Federal UK* John Furlong, Ingrid Lunt, 2019-10-23 Britain's two recent referenda on Brexit 2016 and on Scottish independence 2014 have raised in the public mind fundamental questions about the future of the UK. It seems that for the first time the public, the media and the political elite have woken up to the fact that in different parts of the UK there are different histories, different aspirations and different imagined futures in relation to a whole range of vitally important political issues. But what the public debate often fails to recognise is that in many areas of public life, perhaps especially education, the UK is already a federal state and in key respects has been so for many years. The aim of this volume is therefore to take stock to try and capture what the current state of educational policy and practice is across the whole of the UK. This has been achieved by commissioning two different papers from each of the four countries: Wales, Scotland, Northern Ireland and England. The first is an overview exploring the distinctive history, principles and current policies of each country. The second paper has been specifically chosen as a case study of a key policy that highlights the distinctiveness of each country: the Foundation Phase for Wales, assessment policy in Scotland, shared education initiatives in Northern Ireland and higher education policy in England. Taken together, these eight papers give an important insight into the complexities of educational policy and practice across the whole of the UK today. This volume was originally published as a special issue of *Oxford Review of Education*. **The administration of examinations for 15-19 year olds in England** Great Britain: Parliament: House of Commons: Education Committee, 2012-07-03. Additional written evidence is contained in Volume 3 available on the Committee website at www.parliament.uk/educom. *Validity, Reliability and Efficiency of Comparative Judgement to Assess Student Work* Sven De Maeyer, Tine Van Daal, Renske Bouwer, Marije Lesterhuis, Eva Hartell, 2023-01-13 **2012 GCSE English results** Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11. The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification, in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time but these were not acted upon by the regulator, the then interim Ofqual. Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual as an independent regulator accountable to Parliament is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must

have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do
