The Free-market Family Maxine Eichner,2020 US families have been pushed to the wall At the bottom of the economic ladder poor and working class adults aren t forming stable relationships and can t give their kids the start they need because of low wages and uncertain job prospects Toward the top professional parents lives have become a grinding slog of long hours of paid work Meanwhile their kids are overstressed by pressure to succeed and get into good colleges In this provocative book Maxine Eichner argues that these very different struggles might seem unconnected but they share the same root cause the increasingly large toll that economic inequality and insecurity are taking on families It s government rather than families that s to blame Eichner persuasively contends Since the 1970s politicians have sold families out to the wrongheaded notion that the free market alone best supports them In five decades of free market family policy they ve scrapped government programs and gutted market regulations that had helped families thrive The consequence is the steady drumbeat of bad news we hear about our country today the opioid epidemic skyrocketing suicide and mental illness rates deaths of despair and mediocre student achievement scores Meanwhile politicians just keep telling families to work a little harder The Free Market Family documents US families impossible plight showing how much worse they fare than families in other countries It then demonstrates how politicians free market illusions steered our nation wildly off course Finally it shows how using commonsense measures we can restructure the economy to work for families rather than the reverse Doing so would invest in our children s futures increase our wellbeing reknit our social fabric and allow our country to reclaim the American Dream

Hard Target Stephan Haggard,Marcus Noland,2017-05-30 Because authoritarian regimes

like North Korea can impose the costs of sanctions on their citizens these regimes constitute hard targets Yet authoritarian regimes may also be immune and even hostile to economic inducements if such inducements imply reform and opening This book captures the effects of sanctions and inducements on North Korea and provides a detailed reconstruction of the role of economic incentives in the bargaining around the country's nuclear program Stephan Haggard and Marcus Noland draw on an array of evidence to show the reluctance of the North Korean leadership to weaken its grip on foreign economic activity They argue that inducements have limited effect on the regime and instead urge policymakers to think in terms of gradual strategies Hard Target connects economic statecraft to the marketization process to understand North Korea and addresses a larger debate over the merits and demerits of engagement with adversaries
