A Level Playing Field Jane Fowler Morse,2012-02-01 In this timely work Jane Fowler Morse reviews the history of school finance litigation in the United States and then examines recent legal and political struggles to obtain equitable school funding in New York Vermont and Ontario These three places have employed strikingly different strategies to address this issue and Morse analyzes lessons learned at each that will benefit both public officials and citizens interested in seeking reform elsewhere Drawing on writers from Aristotle to Cass Sunstein and Martin Luther King Jr she also explores the concepts of social justice and equity highlighting the connections between racism poverty and school funding The result is a passionate plea for equitable funding of public education nationwide to instantiate the ideal of liberty and justice for all

Splintered Jonathan Butcher,2022-03-22 The problem with our nation s schools today is not just the low test scores in basic reading and math which are an obstacle for the economy not to mention students futures The challenge is that K 12 instruction has been hijacked by Critical Theorists who are skeptical of representative government and the freedoms we cherish The debates over the retelling of America s past on display in local school board meetings as well as conflicts

between the New York Times 1619 Project and President Donald Trump's 1776 Commission involve not just historical facts but how Americans define their nation. This battle over our national identity is a cultural battle involving schools, cultural institutions, and the ideas we all need to share to get along with our neighbors, raise families, and pursue the American Dream. Jonathan Butcher is one of our sharpest and most insightful analysts writing about education today. The nation owes him a debt of gratitude for work demystifying an obscure academic field, critical race theory, and fearlessly following where it leads when imposed on our public schools, abandoning the cherished belief that education can be a means of uniting our diverse country and replacing it with a pedagogy of grievance and despair. Robert Pondiscio, Senior Fellow, American Enterprise Institute, and author of *How the Other Half Learns*. Jonathan Butcher's timely book on critical race theory addresses what I have described as the civil rights issue of our times. Too few Americans understand how this dangerous ideology and how it has seeped down into our K-12 educational system. Butcher's book is part of a collective effort to educate the American people about the infiltration and indoctrination of our educational system. Dr. Carol M. Swain, a former tenured professor at Vanderbilt and Princeton Universities.
