Computers and Society Ronald M. Baecker, 2019 Computers and Society explores the history and impact of modern technology on everyday human life considering its benefits drawbacks and repercussions Particular attention is paid to new developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with AI

From Head Shops to Whole Foods Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change
