Harm's Way Lloyd Osbourne, 1910 *In Harm's Way* Kathleen Kern, 2009-01-01 In 1984 Evangelicals for Social Action founder Ron Sider posed the questions What would happen if we in the Christian church developed a new nonviolent peacekeeping force ready to move into violent conflicts and stand peacefully between warring parties Everyone assumes that for the sake of peace it is moral and just for soldiers to get killed by the hundreds of thousands even millions Do we not have as much courage and faith as soldiers Christian Peacemaker Teams CPT has been trying to answer those questions since 1986 CPT has responded to invitations from grassroots organizers on five continents who are using nonviolent strategies to confront systemic oppression This book provides a glimpse into the mistakes and successes the triumphs and tragedies that teams have shared in with local co workers in various nations It also continues to pose the question What would happen if CPT's efforts were multiplied by millions of Christians with a radical commitment to Jesus's nonviolent gospel **The Routledge International Handbook of Harmful Cultural Practices** Maria Jaschok, U. H. Ruhina Jesmin, Tobe Levin von Gleichen, Comfort Momoh, 2023-12-04 This handbook looks at cross cultural work on harmful cultural practices considered gendered forms of abuse of women These include female genital mutilation FGM virginity testing hymenoplasty and genital cosmetic surgery Bringing together comparative perspectives intersectionality and interdisciplinarity it uses feminist methodology and mixed methods with ethnography of central importance to provide holistic grounded theorizing within a framework of transformative research Taking female genital mutilation a topical contested practice and making it a heuristic reference for related procedures makes the case for global action based on understanding the complexity of harmful cultural practices that are contextually differentiated and experienced in intersectional ways But because this phenomenon is enshrouded in matters of sensitivity and prejudice narratives of suffering are muted and even suppressed are dismissed as indigenous ritual or become ammunition for racist organizing Such conflicted and often opaque debates obstruct clear vision of the scale of both problem and solution Divided into six parts Discourses and Epistemological Fault Lines FGM and Related Patriarchal Inscriptions Gender and Genitalia Female Bodies and Body Politics Economics Law Medicine Public Health and Human Rights Placing Engagement Innovation Impact Care Words and Texts to Shatter Silence Comprised of 24 newly written chapters from experts around the world this book will be of interest to scholars and students of nursing social work and allied health more broadly as well as sociology gender studies and postcolonial studies **Taking action to protect children from the harmful impact of food marketing** World Health Organization, United Nations Children's Fund, 2023-07-07 **England's Israel and the Foundations of Modern Political Thought** Meirav Jones, 2025-07-08 The foundations of modern political thought presumed secular were laid in conversation with theologically motivated politics and in negotiation with Jewish ideas Mid seventeenth century England was a hotbed in which crucial ideas of modern politics were conceived Thomas Hobbes presented his social contract John Selden wrote major treatises which were foundational for

modern natural and international law and England participated in the wave of republicanism that swept over Europe This was also the period of the English Civil War which has been portrayed as a war of religion and a revolution of saints and was characterized by religious ends and motivations guiding politics and politicians In England s Israel and the Foundations of Modern Political Thought Meirav Jones proposes that the foundational political theory conceived in this period was significantly related to the theological politics of the time Through an examination of the language and imagery shared by theorists and saints Jones finds that in the twenty year period between 1640 and 1660 when Hobbes Selden and their contemporaries published over 40 percent of all texts published in England contained one or more of the terms Hebrew Israel Jerusalem Zion or Jew Further all known works of political theory from the period employed these terms While preachers in English parliament addressed and understood England as Israel foundational theorists of the modern state employed ancient Israel as a political model and explicitly preferred Hebrew over Greek wisdom Modern politics did not develop solely from within a conversation among elites neither was it conceived as a Godless enterprise even by its most renowned secular architects Instead as the book demonstrates it spoke the language of religiously motivated politics and was conceived in its terms Ultimately Jones argues that it was through a sweeping revival of Hebrew in early modern Europe that the foundations of modern politics were laid in conversation with theological politics and in negotiation with Jewish ideas and ideas of the Jews

Decock, Janwillem Oosterhuis, 2021-10-07 What impact has Christianity had on law and policies in the Lowlands from the eleventh century through the end of the twentieth century Taking the gradual secularization of European legal culture as a framework this volume explores the lives and times of twenty legal scholars and professionals to study the historical impact of the Christian faith on legal and political life in the Low Countries The process whereby Christian belief systems gradually lost their impact on the regulation of secular affairs passed through several stages not in the least the Protestant Reformation which led to the separation of the Low Countries in a Protestant North and a Catholic South in the first place The contributions take up general issues such as the relationship between justice and mercy Christianity and politics as well as more technical topics of state church law criminal law and social policy The Cambridge Companion to Hugo Grotius Randall Lesaffer, Janne E. Chong, 2022-04-04 *International Law for Freshwater Protection* traces the development of international water law on fresh water protection and demonstrates how the regime focuses on the utilisation and rights of sovereign states over the protection and sustainable growth of shared water resources The evolving jurisprudence influenced by environmental law highlights the regime's insufficient focus on the environmental protection of watercourses This book argues that existing rules mechanisms and norms within international law can address the regime's imbalance and establish how these might be applied to improve freshwater protection **Harm's Way** Sandra Macpherson, 2010-01-18 A field defining study of the novel as a tragic form Sandra Macpherson's groundbreaking study of the rise of the novel connects its form to developments in liability law across the seventeenth to nineteenth centuries In particular Macpherson argues for a connection to legal principles of strict liability that hold persons accountable for harms inflicted upon others in the absence of intention consent direct action or foreknowledge In convincing polemical readings of Defoe Richardson and Fielding she shows that these laws share with the novel the view that the state of a person's mind is irrelevant to the question of her responsibility for her actions Macpherson urges readers to rethink the ancient consensus that the novel differs from tragedy in its elevation of character over plot She concludes that the realist novel is ultimately a tragic form committed to holding persons accountable

for accidents of fate Macpherson's original insights continue to have a broad and lasting impact on the study of the novel
