But not many get to be called them all especially when they've started life with an aversion to school and a stammer. Mick Patrick started his aviation career as an RAF Apprentice and finished it as an Air Ambulance pilot. He never knew he was going to become a pilot just that he was determined to have a good start in life and it seemed the RAF offered this to him. As an engineer Mick saw active service on jungle airstrips in the Far East during the Borneo Confrontation with Indonesia and got his hands dirty servicing Cold War aircraft. Later he had an opportunity to become aircrew as a Flight Engineer and it was from this position he was able to use his knowledge as part of a crew to take the next step. After many years of watching pilots ply their trade Mick decided he could do it too so worked his way up to becoming a commercial pilot. Along the way he experienced risky moments that shaped him as an aviator he crashed a float plane in a Texas lake flew casualties to Coventry and elephants to the East nose dived in Nassau and skirted death at Stansted. The tales in this book are used to illustrate how they affected Mick's approach to aviation and what he took away from those events. Immensely readable and delivered by a true story teller *From Jacks to Joysticks* is for anyone who loves tales of aircraft and life in aviation whether in the cockpit or on the ground. Above all else this book is about how a lifetime of exposure to aviation has shaped one man's thinking and approach to life and how in aviation you need to keep an open mind. **Mike Filey's Toronto Sketches, Books 4-6** Mike Filey, 2014-04-23 Mike Filey's column *The Way We Were* first appeared in the *Toronto Sunday Sun* not long after the first edition of the paper hit the newsstands on September 16 1973.
