## **Hinterlands II The Stables English Edition:**

**Monte Albán's Hinterland, Part II** Stephen Kowalewski, Gary Feinman, Laura Finsten, Richard E. Blanton, Linda Nicholas, 1989-01-01 This two volume monograph is the final report and synthesis of the Valley of Oaxaca Settlement Pattern Project's full coverage surface survey and makes significant theoretical and methodological contributions to the investigation of social evolution cultural ecology and regional analysis *The Rural Hinterland of Antipatris from the Hellenistic to the Byzantine Periods* Amit Shadman, 2023-07-27 This book presents the results of extensive excavations conducted in the rural region south and east of the modern city of Rosh Ha Ayin The archaeological and historical data that are analysed span a period of over 1000 years *The New Tripoli and what I Saw in the Hinterland* Ethel Braun, 1914 Port-Cities and their Hinterlands Robert Lee, Paul McNamara, 2022-03-14 This interdisciplinary book brings together eleven original contributions by scholars in the United Kingdom continental Europe America and Japan which represent innovative and important research on the relationship between cities and their hinterlands They discuss the factors which determined the changing nature of port hinterland relations in particular and highlight the ways in which port cities have interacted and intersected with their different hinterlands as a result of both in and out migration cultural exchange and the wider flow of goods services and information Historically maritime commerce was a powerful driving force behind urbanisation and by 1850 seaports accounted for a significant proportion of the world's great cities Ports acted as nodal points for the flow of population and the dissemination of goods and services but their role as growth poles also affected the economic transformation of both their hinterlands and forelands In fact most ports irrespective of their size had a series of overlapping hinterlands whose shifting importance reflected changes in trading relations political frameworks migration patterns family networks and cultural exchange Urban historians have been criticised for being concerned primarily with self contained processes which operate within the boundaries of individual towns and cities and as a result the key relationships between cities and their hinterlands have often been neglected The chapters in this work focus primarily on the determinants of port hinterland linkages and analyse these as distinct but interrelated fields of interaction Marking a significant contribution to the literature in this field Port Cities and their Hinterlands provides essential reading for students and scholars of the history of economics

**Literary and Cultural Representations of the Hinterlands** Ewa Kęłowska-Ławniczak, Dominika Ferens, Katarzyna Nowak-McNeice, Marcin Tereszewski, 2023-12-22 This interdisciplinary collection explores the diverse relationships between the frequently ignored and inherently ambiguous hinterlands and their manifestations in literature and culture Moving away from perspectives that emphasize the marginality of hinterlands and present them as devoid of agency and cultural currency this collection assembles a series of original essays using various modes of engagement to reconceptualize hinterlands and highlight their semiotic complexity Apart from providing a reassessment of hinterlands in terms of their geocultural significance this book also explores hinterlands through such concepts as nostalgia heterotopia identity formation habitation and cognitive mapping with reference to a wide geographical field Literary and filmic revisions of familiar hinterlands such as the Australian outback Alberta prairie and Arizona desert are juxtaposed in this volume with representations of such little known European hinterlands as Lower Silesia and Ukraine and the complicated political dimension of First World War internment camps is investigated with regard to Kapuskasing Ontario Rural China and the Sussex Downs are examined here as writers retreats Inner city hinterlands in Haiti India Morocco and urban New Jersey take on new meaning when contrasted

with the vast hinterlands of megacities like Johannesburg and Los Angeles The spectrum of diverse approaches to hinterlands helps to reinforce their multilayered and multivocal nature as spaces that defy clear categorization Commerce by a Frozen Sea Ann M. Carlos, Frank D. Lewis, 2011-06-06 *Commerce by a Frozen Sea* is a cross cultural study of a century of contact between North American native peoples and Europeans During the eighteenth century the natives of the Hudson Bay lowlands and their European trading partners were brought together by an increasingly popular trade in furs destined for the hat and fur markets of Europe Native Americans were the sole trappers of furs which they traded to English and French merchants The trade gave Native Americans access to new European technologies that were integrated into Indian lifeways What emerges from this detailed exploration is a story of two equal partners involved in a mutually beneficial trade Drawing on more than seventy years of trade records from the archives of the Hudson's Bay Company economic historians Ann M Carlos and Frank D Lewis critique and confront many of the myths commonly held about the nature and impact of commercial trade Extensively documented are the ways in which natives transformed the trading environment and determined the range of goods offered to them Natives were effective bargainers who demanded practical items such as firearms kettles and blankets as well as luxuries like cloth jewelry and tobacco goods similar to those purchased by Europeans Surprisingly little alcohol was traded Indeed *Commerce by a Frozen Sea* shows that natives were industrious people who achieved a standard of living above that of most workers in Europe Although they later fell behind the eighteenth century was for Native Americans a golden age Constantinople and its Hinterland Cyril Mango, Gilbert

Dagron, 2016-12-05 From its foundation the city of Constantinople dominated the Byzantine world It was the seat of the emperor the centre of government and church the focus of commerce and culture by far the greatest urban centre its needs in terms of supplies and defense imposed their own logic on the development of the empire Byzantine Constantinople has traditionally been treated in terms of the walled city and its immediate suburbs In this volume containing 25 papers delivered at the 27th Spring Symposium of Byzantine Studies held at Oxford in 1993 the perspective has been enlarged to encompass a wider geographical setting that of the city's European and Asiatic hinterland Within this framework a variety of interconnected topics have been addressed ranging from the bare necessities of life and defence to manufacture and export communications between the capital and its hinterland culture and artistic manifestations and the role of the sacred

Blanton, Stephen Kowalewski, Gary Feinman, Jill Appel, 1982-01-01 In this work the authors interpret archaeological data on roughly 3000 years of human history in the Valley of Oaxaca from roughly 1500 BC to AD 1500 They integrate information on settlement patterns political and social organization artifact distribution and more **A Time of Change: Questioning the "Collapse" of Anuradhapura, Sri Lanka** Keir Magalie
