

# **JUNE EXAMINATION GRADE 12**

**2023**

## **MARKING GUIDELINES**

### **ACCOUNTING**

#### **(PAPER 1)**

**12 pages**

#### **MARKING PRINCIPLES:**

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a □.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

**Amedeo D'Angiulli, Kimberly Schonert-Reichl, Nicole Letourneau, Eric R. Hamilton, Gerry Leisman**

## **History Paper 1 Trial Exam 2014 Gauteng:**

*Exploring decolonising themes in SA sport history* Francois Johannes Cleophas, 2018-01-01 In an effort to understand how the absences of the colonial subject in sport were engineered and how colonial narratives became fixed in the literature and minds of South Africans *Exploring Decolonising Themes in SA Sport History* Issues and Challenges attempts a full scale restructuring and rewriting of the history of sport in South Africa to include black South Africans and thereby places them on the forefront of a colonial history The book includes the articulations of academic researchers professionals and retired sportspeople who were requested to explore their unique areas of interest in sport from the perspective of themes in South African sport history They place themselves at the centre of discourses that dispel myths that blacks had no sport significance prior to 1994 The book ultimately challenges this spirit of the past where there was only one narrative a white male sport tradition Rather than adapting past colonial and apartheid narratives this work seeks to fundamentally replace and supersede them

*A Cultural History of Tragedy in the Age of Enlightenment* Mitchell Greenberg, 2021-05-20 The period covered by this volume in the *Cultural History of Tragedy* set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649 and Louis XIV of France in 1793 The period between these two dates saw enormous political social and economic changes that altered European society's cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France's military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France's two greatest playwrights Pierre Corneille 1606-84 and Jean Racine 1639-99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire's tragedies This volume also examines how the writings of Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Schiller Hegel tragedy and the tragic were reimagined and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality

**History of the New York Times, 1851-1921** Elmer Holmes Davis, 1921 *History of the New York Times from 1851-1921* **The Intersection of Cognitive, Motor, and Sensory Processing in Aging: Links to Functional Outcomes** Jeannette R. Mahoney, Jennifer Campos, Uros Marusic, 2022-10-07 *Driving Forensic Innovation in the 21st Century* Simona Francese, Roberto S. P. King, 2024-05-13 This contributed volume offers a comprehensive and multifaceted understanding of the current forensic innovation landscape enablers road blockers and barriers to implementation It also presents all aspects

that need consideration to cross the valley of death between an idea and its successful implementation It uniquely merges the technical and scientific aspects of some of the innovations that have been implemented across forensic science within the National and International landscape and with i the necessary considerations to take into account on the road to success such as business planning data privacy and legal and regulatory aspects ii the end users perspective and iii the industry perspective Case studies illustrate what success looks like by discussing forensic innovations that have made it to the market and have subsequently impacted positively on criminal investigations This book acts as a platform to facilitate the dialogue between key stakeholders in driving innovation namely academia industry and end users as well as indicating a roadmap to facilitate practical developments whilst serving as a revolutionary springboard to initiate an innovation transforming paradigm shift This volume is a valuable contribution to the field and is of great interest to graduates and researchers engaged in forensic science forensic service providers and manufacturers as well as policymakers

**Functional Near-infrared Diffuse Optical Spectroscopy (fNIRS) to Explore Mental Health** Yu Shang,Chong Huang,Ting

Li,2022-09-28 Contemporary Concepts in Treating the Rheumatoid Hand, An Issue of Hand Clinics Kevin C.

Chung,2024-11-13 In this issue of Hand Clinics guest editor Dr Kevin C Chung brings his considerable expertise to the topic of Contemporary Concepts in Treating the Rheumatoid Hand Top experts discuss the assessment of progressive hand and wrist deformities in the rheumatoid patient treatment of juvenile rheumatoid arthritis treatment of the thumb in the rheumatoid hand outcomes assessments for the rheumatoid hand and more Contains 13 relevant practice oriented topics including advances in the medical treatment of rheumatoid arthritis best and worst operations for the rheumatoid hand outcomes of small joint arthroplasty for the rheumatoid hand total wrist arthroplasty versus wrist fusion in rheumatoid arthritis therapy for the rheumatoid hand and more Provides in depth clinical reviews on treating the rheumatoid hand offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews

**Disability, Criminal Justice and Law** Linda Steele,2020-04-29 Through theoretical and empirical examination of legal frameworks for court diversion this book interrogates law s complicity in the debilitation of disabled people In a post deinstitutionalisation era diverting disabled people from criminal justice systems and into mental health and disability services is considered therapeutic humane and socially just Yet by drawing on Foucauldian theory of biopolitics critical legal and political theory and critical disability theory Steele argues that court diversion continues disability oppression It can facilitate criminalisation control and punishment of disabled people who are not sentenced and might not even be convicted of any criminal offences On a broader level court diversion contributes to the longstanding phenomenon of disability specific coercive intervention legitimates prison incarceration and shores up the boundaries of foundational legal concepts at the core of jurisdiction legal personhood and sovereignty Steele shows that the

United Nations Convention on the Rights of Persons with Disabilities cannot respond to the complexities of court diversion suggesting the CRPD is of limited use in contesting carceral control and legal and settler colonial violence The book not only offers new ways to understand relationships between disability criminal justice and law it also proposes theoretical and practical strategies that contribute to the development of a wider re imagining of a more progressive and just socio legal order The book will be of interest to scholars and students of disability law criminal law medical law socio legal studies disability studies social work and criminology It will also be of interest to disability prisoner and social justice activists

Topic Editors declare no competing interests with regards to the Research Topic **Biomechanical Performance and**

**Relevant Mechanism of Physical Medicine and Rehabilitation for Neuromusculoskeletal Disorders** Qipeng Song, Li

Li, Pui Wah Kong, Lin Wang, Feng Wei, 2023-11-23 Biomechanical performance is a key to evaluating effectiveness in physical

medicine and rehabilitation for neuromusculoskeletal disorders Assessments can be applied to degenerative dysfunction e g

falls or knee osteoarthritis in older adults and sports related injuries e g ankle sprain or anterior cruciate ligament injury

Patients body movements and daily activity functions can be compared to the state of pre injury condition or to the level of

healthy individuals Some cutting edge studies have gone a step further and used biomechanical performance to develop

physical medicine and rehabilitation approaches and explore the mechanisms behind their effectiveness However such

studies are still relatively rare This research topic is intended to encourage more relevant projects to be published This

research topic aims to encourage researchers to use biomechanical performance to design advanced physical medicine and

rehabilitation approaches evaluate the effectiveness of the rehabilitation approaches and explore the mechanisms by which

rehabilitation approaches work for neuromusculoskeletal disorders Some studies have developed stretching approaches for

the rehabilitation of knee osteoarthritis in older adults by measuring biomechanical performance during functional activities

Some studies indicated that the mechanism of physical activity to reduce falls in older adults lies in its effectiveness in

increasing proprioceptive sensitivity and further indicated that rehabilitation of proprioception may be a key to reducing falls

in the fall prone older adult population Some other studies analyzed biomechanical performance in ankle ligament injuries to

understand when how and why ligaments fail As a result this research topic will expand the application of biomechanical

performance to better understand and treat neuromusculoskeletal disorders      African Indigenous Knowledge and the Sciences Gloria Emeagwali,Edward Shizha,2016-07-08 This book is an intellectual journey into epistemology pedagogy physics architecture medicine and metallurgy The focus is on various dimensions of African Indigenous Knowledge AIK with an emphasis on the sciences an area that has been neglected in AIK discourse The authors provide diverse views and perspectives on African indigenous scientific and technological knowledge that can benefit a wide spectrum of academics scholars students development agents and policy makers in both governmental and non governmental organizations and enable critical and alternative analyses and possibilities for understanding science and technology in an African historical and contemporary context      **Principles of Hip Arthroscopy** Shane J. Nho,Joshua D. Harris,Jaimo Ahn,2017-08-16 The field of arthroscopy originating from Denmark in 1912 has rapidly evolved to diagnose and treat a wide range of musculoskeletal pathologies Although around for sometime arthroscopy in the field of orthopedics has traditionally focused on the knee shoulder or elbow as arthroscopy of the hip is technically challenging the deep structures of the hip including neurovascular bundles require specialized training and equipment to access However with advances in surgical techniques hip arthroscopy has become increasingly popular given its ability to treat pathologies with previously poor prognoses such as labral tears hip arthritis and femoroacetabular impingement FAI When indicated hip arthroscopy results in shorter recovery times low complication rates and excellent outcomes in quality of life and pain regardless of age gender or activity level The purpose of this e book is to shed light on this expanding field by delving into the common hip pathology femoroacetabular impingement its clinical relevance and to explore various surgical techniques and postoperative rehabilitation It is our hope that this textbook provides valuable knowledge to advance the field of hip arthroscopy enhance surgical techniques and ultimately increase the quality of patient care Enjoy Shane J Nho MD MS Joshua D Harris MD Jaimo Ahn MD PhD      **The Independent** ,1878      *Tradition, Knowledge and Modernity* Miquel Gutierrez i Poch,2021      *The Internet, Development, Human Rights and the Law in Africa* Danwood Chirwa,Caroline Ncube,2023-03-17 This book tracks and critiques the impact of the internet in Africa It explores the legal policy implications of and legal responses to the internet in matters straddling human rights development trade criminal law intellectual property and social justice from the perspective of several African countries and the region Well known and emerging African scholars consider whether access to the internet is a human right the implications on the right to privacy e commerce cybercrime the opportunities and dangers of admitting electronic evidence the balancing of freedom of expression with the protection of intellectual property and how different African legal systems address this tension This book will be an invaluable resource for a wide range of stakeholders including researchers scholars and postgraduate students policymakers and legislators lawyers and judicial officers crime fighting agencies national human rights institutions civil society organisations international and regional organisations and human rights monitoring bodies      **Mild Cognitive Impairment: Influencing Factors and Intervention Effects** Ying Wang,Jin-Tai

Yu,Xinyi Cao,Guillermo Felipe,López Sánchez,2024-07-16 As the aging population degree is deepened cognitive impairment has become a globally recognized public health problem As an intermediate state from normal cognition NC to Alzheimer s disease AD mild cognitive impairment MCI has a highly variable cognitive trajectory which contains three outcomes 1 progression to AD and other types of dementia 2 Maintaining stability 3 Reversal to NC Reversal of cognitive function can be achieved by taking positive and effective measures Current studies mostly focus on factors affecting MCI to AD World Health Organization and Alzheimer s Disease International have also proposed relatively mature guidelines for risk factors However there are still some influencing factors that have not yet formed a unified conclusion In addition there are fewer studies and no consensus on the influencing factors for MCI to NC Current forms of intervention for MCI are mainly non pharmacological interventions and there is a lack of randomized controlled trials with larger sample sizes and longer intervention periods to confirm the effect of pharmacological and non pharmacological interventions The purpose of this study is to explore the factors that influence the transition from MCI to AD or NC in aging adults and to examine how the influencing factors make the cognitive function of aging adults with MCI deteriorate improve or even reverse to NC and how are their reversal rates This includes effective measures proven through pharmacological and non pharmacological intervention studies and their impact on reversal Influence factors include but are not limited to demographic factors age socioeconomic status education lifestyle smoking alcohol consumption physical activity nutrition social participation mental health depression loneliness diseases hypertension diabetes sleep disorders biological markers amyloid tau protein and pharmacological factors cholinesterase inhibitor A monoclonal antibodies drugs to rebalance the gut flora etc and submission of research results based on intervention trials is encouraged *Targeting Human Inflammatory Skin Diseases With Natural Products: Exploring Potential Mechanisms and Regulatory Pathways* Bey Hing Goh,Andrei Mocan,Jianbo Xiao,Wei Hsum Yap,Siau Hui Mah,2022-01-07 **Bridging Music Informatics with Music Cognition** Naresh N. Vempala, Frank A. Russo, Geraint A. Wiggins,2018-09-14 Music informatics is an interdisciplinary research area that encompasses data driven approaches to the analysis generation and retrieval of music In the era of big data two goals weigh heavily on many research agendas in this area a the identification of better features and b the acquisition of better training data To this end researchers have started to incorporate findings and methods from music cognition a related but historically distinct research area that is concerned with elucidating the underlying mental processes involved in music related behavior
