Stephen Moonie,2022-03-22 This study is an analysis of high and late modernist criticism in New York during the 1960s and early 1970s Through a close reading of a selection of key critics of the period which will expand the remit beyond the canonical texts the book examines the ways that modernist criticism s discourse remains of especial disciplinary interest Despite its alleged narrowness and exclusion the debates of the 1960s raised fundamental questions concerning the nature of art writing Those include arguments around the nature of value and judgement the relationship between art criticism and art history and the related problem of what we mean by the contemporary Stephen Moonie argues that within those often fractious debates there exists a shared discourse And further contrary to the current consensus that modernists were elitist dogmatic and irrelevant to contemporary debates on art the study shows that there is much that we can learn from reconsidering their writings The book will be of interest to scholars working in art history modern art art criticism and literary studies *Critical Exchange* Carol Adlam,Juliet Simpson,2009 The traditional borders between the arts have been eroded to reveal new connections and create new links between art forms Cultural Interactions is intended to provide a forum for this activity It will publish monographs edited collections and volumes of primary material on points of crossover such as those between literature and the visual arts or photography and fiction music and theatre sculpture and historiography

persistence of taste in shaping even this most sophisticated philosophy of art Why Art Criticism?
