Unions Renewed Alice Martin,Annie Quick,2020-09-29 Unions face a once in a generation opportunity for renewal Decades of decline have been compounded by a

global elite who increasingly generate profit from financial engineering in ways that side step labour and undermine the power of organised workers However as this economic system begins to falter there are signs of a renewed union movement emerging Debt laden firms from supermarkets and nursery chains to outsourcing giants are collapsing and workers are organising to determine what comes next Unionised bank cashiers are refusing to push predatory loans teachers are striking against the exploitative housing market and manufacturing workers are pooling redundancy pay to buy out plants and become worker owners Alice Martin and Annie Quick argue that these are seeds of union renewal To be effective in an age of finance the union movement must set its ambitions beyond narrow wage bargaining and towards the financial systems that have infiltrated workplaces and impoverished communities By doing so they can play a critical role in ushering in a new democratic economy No one committed to economic justice can afford to miss this urgent highly original book and its radical vision for unions

Beyond Constraint Shona N. Jackson, 2024-10-11 In *Beyond Constraint* Shona N Jackson offers a new approach to labour and its analysis by demonstrating the fundamental relation between black and Indigenous People s sovereign free and coerced labour in the Americas Through the writings of Cedric Robinson Walter Rodney C L R James and Sylvia Wynter Jackson confronts the elision of Indigenous People s labour in the black radical tradition She argues that this elision is an effect of the structural relation of antiblackness to anti indigeneity through which native and black bodies are arranged on either side of a split between unproductive labour and productive work necessary for capital accumulation and for how we read capital in political economic critique This division between labour and work forces the radical tradition to sustain the break between black and Indigenous peoples as part of its critical strategies of liberation To address this impasse Jackson reads the tradition against the grain for openings to indigeneity and a method for recovering lost labours

Parliamentary Papers Great Britain. Parliament. House of Commons, 1903

The British left and the defence economy Keith Mc Loughlin, 2022-03-29 Forty years before COVID 19 socialists in Britain campaigned for workers to have the right to make socially useful products from hospital equipment to sustain the NHS to affordable heating systems for the impoverished elderly This movement held one thing responsible above all else for the nation s problems the burden of defence spending In the middle of the Cold War the left put a direct challenge to the defence industry the Labour government and trade unions The response it received revealed much about a military industrial state that prioritised the making and exporting of arms for political favour and profit Looking at peace activism

from the early 1970s to Labour's landslide defeat in the 1983 general election this book examines the conflict over the cost of Britain's commitment to the Cold War and asserts that the wider left presented a comprehensive and implementable alternative to the stark choice between making weapons and joining the dole queue *A New History of War Reporting* Kevin Williams, 2019-12-23 This book takes a fresh look at the history of war reporting to understand how new technology new ways of waging war and new media conditions are changing the role and work of today's war correspondent Focussing on the mechanics of war reporting and the logistical and institutional pressures on correspondents the book further examines the role of war propaganda accreditation and news management in shaping the evolution of the specialism Previously neglected conflicts and correspondents are reclaimed and wars considered as key moments in the history of war reporting such as the Crimean War 1854-56 and the Great War 1914-18 are re-evaluated The use of objectivity as the yardstick by which to assess the performance of war correspondents is questioned The emphasis is instead placed on war as a messy business which confronts reporters and photographers with conditions that challenge the norms of professional practice References to the demise of the war correspondent have accompanied the growth of the specialism since the days of William Howard Russell the so-called father of war reporting This highlights the fragile nature of this sub-genre of journalism and emphasises that continuity as much as change characterises the work of the war correspondent A thematically organised historically rich introduction this book is ideal for students of journalism media and communication
