

RESEARCH PROPOSAL TEMPLATE

When preparing an application for entry into a research higher degree program it is necessary to supply a clear statement describing the proposed area of research (a research proposal). Consultation with a faculty or school academic staff member in the research area of interest is recommended prior to submission of an application. Liaising with an academic allows you to frame the proposal to align with established disciplines and areas of supervisor capacity.

You must write your own research proposal and reference accordingly. The exception is when your potential supervisor finalises the research proposal with you, for a specific research project that has already been defined. Please visit the University's Academic Integrity pages and policy

General

Length:	From one to three pages is often suitable, depending on the area of research.
Detail:	The following outline may be used as a guide. You should consider each of the areas that will be relevant to your research.
Minimums:	The recommended minimum requirements are identified with an asterisk (*).

Research topic/title*

An initial working title should be provided and should describe the content and direction of your project.
For example: *A template for assisting research students in the development of a research proposal.*

PROJECT DESCRIPTION

Background

What is already known or unknown? Set the scene.

Aims*

What do you want to know, prove, demonstrate, analyse, test, investigate or examine? List your project aims in a logical sequence. For example:
The aim of this project is to:

- Provide an outline of a research proposal
- Enable a prospective student to prepare a research proposal

Methodology*

How do you anticipate you will achieve these aims?
What do you need? (specify any special equipment, software or material) Can you access necessary data or expertise?
Do you require particular resources?
Are there barriers or pitfalls?
Does the project involve human ethics, animal ethics or safety implications?
Is travel or fieldwork required? If so, where to, how long and at what intervals?

Expected outcomes, significance or rationale

Why is it important?
What do you expect it will deliver?
What are the expected outcomes?
Establish the importance of your project by highlighting its originality or why it is worth pursuing. Highlight the benefits, positive expected outcomes or innovative applications of knowledge.

Timetable*

Indicate the timeframe for each broad stage considering literature surveys, data collection, production, modelling, review, analysis, testing, reporting, chapter and thesis writing, and thesis submission date.

How To Write A Proposal For Research Paper:

A Systematic Guide to Write a Research Paper , *How to Write a Research Paper: A Guide Book for Neophyte Students*
Dr. Rashmee Yadav,2023-02-14 ABOUT THE BOOK The book How to write a Research Paper Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction They have covered almost all the areas of research paper writing process and how to write a research paper etc The book is based on the research paper writing process The author s main focused on this book How to write a Research Paper Guide Book for the neophyte students This book is helpful to students writing research paper in proper way because plenty of research papers are written every year But in many of them research methodology aspect is not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them actually This is true even for management research papers writing A research paper analyzes a perspective or argues a point Regardless of the type of research paper the researcher is writing the researcher should present his own thinking backed up by others ideas and information Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences we have developed a detailed approach to writing research papers and the approach is presented here Instead of focusing on one research paper we have focused on the process of research writing through a series of shorter writing exercises Students begin by having to carefully think about a topic of research and by developing a working idea They then write a series of shorter essays that explore that topic All along the way students are continuing to research and revise their working proposal so that by the end of the term their thinking about their original topic of research has evolved This b *Designing and Managing Your Research Project* David Thomas,Ian D Hodges,2010-09-21 Written for advanced undergraduate students postgraduate students planning theses and dissertations and other early career researchers *Designing and Managing Your Research Project* helps you successfully plan and complete your research project by showing the key skills that you will need The book covers choosing research methods developing research objectives writing proposals literature reviews getting ethics approval seeking funding managing a project software skills working with colleagues and supervisors communicating research findings writing reports theses and journal articles careers in research *Designing and Managing Your Research Project* includes lots of examples case studies and practical exercises to help you learn the research skills you will need and also to help you complete crucial project tasks A key feature is its user friendly guidance on planning projects and accessing information from the Internet The International Student's Guide to Writing a Research Paper Janine Carlock,Maeve Eberhardt,Jaime Horst,Peter Kolenich,2017-06-13 The International Student s Guide to Writing a Research Paper is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time This book is partly an update

of Writing a Research Paper by Lionel Menasche 1998 and partly a companion to The ESL Writer s Handbook Each section of the book includes a discrete task called a Building Block which requires students to apply the skills learned toward the development of their own paper This step by step approach allows students to construct knowledge as they become more familiar with the process making writing a research paper a less intimidating task Special features This guide uses simple direct language for those for whom writing a research paper is new Most example writing is from international students in an ESL program or first year writing class including two sample papers one in APA and one in MLA A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft A subsection dedicated to constructing clear and cohesive paragraphs and sentences The guide includes citation and style examples in MLA 8th edition

Writing Research Proposals for Social Sciences and Humanities in a Higher Education Context George Damaskinidis, Anastasia Christodoulou, 2019-03-08 A research proposal is a plan that a candidate submits to gain approval for post graduate research Although it is a typical requirement for any research in higher education it has failed to receive the attention it deserves from the academic community as a procedure of systematic teaching and learning This book provides a support framework with step by step guidance about what constitutes a good research proposal and what can be done to maximize one s chances of writing a successful application It also presents advice and practical activities to enhance skill development and shows how success is within reach if we are willing to face our flaws and grasp how to use the available information productively and persuasively

Writing the Research Paper Philip M. McCarthy, Khawlah Ahmed, 2021-12-30 Covering both theoretical and practical approaches Writing the Research Paper guides students studying in English as a second or additional language through the skills necessary for success in university level writing and research The book begins with theoretical considerations such as research argumentation and critical thinking It then offers a broad range of practical assistance covering all aspects of the writing process including topic selection argument counter argument paragraph structure and cohesion The book is accompanied by a companion website writingtheresearchpaper.com The website hosts many features including chapter summaries exercises quizzes PowerPoints additional learning material and technology assistance The website also hosts numerous authentic examples of student papers at each of the critical stages of the writing process
