

The economic perspective which supports this practical phenomenon and being provisioned by the experts is demand and supply combination. It is probably due to high demand of female models in Hollywood as compared to male category of models. However it slightly differs in case of acting and modeling. In modeling, this is most important that a leading female model should be in the package. It is for image management.

The demand of leading and successful female models is high whereas the male models are lesser in number but the ones who are in the fields; no doubt they are leading and money takers. But the overall budget and per cast rate is found higher in female models category.

The revenue and success rate of the advertisements in which women models have performed is high and are having decidedly cited records. People have favorites in commercials where they find a female model performing for some brand. The influencing rate is more. It is recognized that the brands which are endorsed by leading female models get raise earlier even the standard is not that much extraordinary.

Another very important factor in high cost female models is that they have to spend more money on their personal maintenance. They are required to wear expensive clothes, jewelry and other accessories in order to retain their persona. This is a reliable opinion in the overall singularity that the demand and expense factors altogether play important roles to identify the role of females in modeling and advertisement. They get more accurate benefits
