American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi's view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry

Heart in Conflict Michael Grimwood, 2009-01-01 *Heart in Conflict* is a study of two periods of intense vocational crisis in William Faulkner's career as a writer his time of apprenticeship before the composition of *The Sound and the Fury* and the beginnings in the late 1930s and early 1940s of the long season of decline that followed the completion of *Absalom Absalom* These periods of crisis Michael Grimwood argues grew out of an ongoing tension between the divided components of Faulkner's personality between two versions of himself the illiterate bumpkin and the sophisticated aesthete It was a collaboration between these two postures that formed Faulkner's vocation that created the impulse to translate the rural unlettered world of Oxford Mississippi into a literature of the highest ambitions But Faulkner was neither bumpkin nor aesthete His awareness of the fraudulence of both his self images and ultimately his art caused him to create beginning with *The Wild Palms* in 1939 novels divided against themselves both structurally and thematically novels whose complexities emanate from their author's own complex personality Grimwood traces the formation of Faulkner's divided personality in his childhood and youth in the conflicting influences of literature and landscape in the conflicting urges wrought by a mother

who called him to the rigors of the schoolhouse and a father whose interests led to the diffuse pleasure of the world outside. The conflict gained dimension when Faulkner's earliest poems written in the style of the European pastoral were mocked by students in the pages of the University of Mississippi literary magazine. Faulkner internalized this mockery and it would emerge in the late 1930s and early 1940s as a destructively self-critical compulsion to write novels *The Wild Palms*, *The Hamlet*, *Knight's Gambit* and *Go Down Moses* that were simultaneously pastoral and mock-pastoral that reflected both an impulse to bequeath his own substance through words and a virtual surrender to illiteracy. In many ways the tensions that divided Faulkner between pastoral ideal and rural reality, between flights of language and attachment to the wordless soil, also divided the whole of southern literature and society from the time of its origins. Such conflicts can be found in the writings of Thomas Jefferson, philosopher of democracy and slaveowner in the southwestern humor and plantation fiction that dominated southern letters in the 1830s and in the works of the agrarian writers of the 1930s whose European poesy belies their dirt-road political beliefs. Showing how the tensions in the narratives mirrored tensions in the author and in his society, *Heart in Conflict* reveals William Faulkner as he struggled with his inheritance both as a southerner and as a southern writer.

Comprehension First Claudia Cornett, 2017-06-30 This book is about designing instruction that makes comprehension the priority in reading and in content area study. The comprehension model described responds to calls from literacy experts and professional organizations for inquiry-based instruction that prepares readers to be active meaning makers who are adept at both critical and creative thinking. *Comprehension First* introduces a before-during-after Comprehension Problem Solving (CPS) process that helps readers ask key questions so they arrive at a substantial comprehension product: big ideas based on themes and conclusions drawn from literary works and expository texts. The book further describes how to orchestrate research-based best practices to build lessons and units around big ideas and important questions. In this age of multiple literacies, all of us must learn to be more nimble users of literacy 2.0 communication tools. Mastering problem solving is at the core of this challenge. *Comprehension First* embraces this challenge by inviting present and future teachers to examine WHY and HOW these tools can be used more purposefully to achieve the pre-eminent literacy goal of deep comprehension.

Painting and Poetry Franklin R. Rogers, Mary Ann Rogers, 1985 This study addresses itself to the formal in the topological sense aspect of literature and literary words and concludes that if logos (discursive language) and mythos (literary language) are indeed contiguous/complementary forms, they are then essentially no different from those forms with which the painter or sculptor deals in the formation of his art object.

Living with Dignity Elna Mouton, Gertrude Kapuma, Len Hansen, Thomas Togom, 2015-01-01 By addressing gender equality as a fundamental expression of human dignity and justice on our continent, this collage of essays by 14 women and 6 men is meant to serve as a concrete alternative

to aspects of gender inequality Its format is particularly devised for use in the classroom and for critical constructive group engagement It is our sincere prayer that it will also be used in imaginative ways by clergy and in congregations as a necessary part of adult learning programmes

The Poetics of Old English Tiffany Beechy,2016-02-24 Combining literary analysis and theoretical linguistics Tiffany Beechy s timely and engaging study provides a critical reassessment of Old English texts that challenges the distinction between Anglo Saxon prose and verse ultimately recognizing an inherent poetic nature present in all Old English texts While the poetic nature of Beowulf due to the regular meter and heroic story is recognized this study demonstrates that poetry is a more widespread phenomenon than previously thought poetic patterning can be found across the Old English corpus both in verse and in so called prose Informed by Jakobsonian linguistics and oral theory Beechy s analysis focuses on the text itself to identify unique poetic strategies This demonstration includes a comparison between King Alfred s Old English version of Boethius Consolatio Philosophiae and the Latin original the poetic quality of prose homilies poetic epistemology in law codes riddles and charms and unconventional poetics even in traditional verse texts such as the short lyric Deor and the long poem Christ I The Poetics of Old English brings interrelated developments in linguistics and literary theory to the study of Anglo Saxon language and culture showing that Old English texts when considered at the level of language are surprisingly sophisticated

Republican Politics and English Poetry, 1789-1874 Stephanie Kuduk Weiner,2005-08-03 This study explores how poets who espoused republican political ideals sought to embody and advance those principles in their verse By examining a range of canonical and non canonical authors including Blake Shelley Cooper Linton Landor Meredith Thomson and Swinburne Kuduk Weiner connects the formal strategies of republican poems to the political theory and expressive cultures of republican radicalism Her new study traces a strain of powerful complex political poetry that casts new light on the political and literary history of nineteenth century England
