Free Range Learning Laura Weldon,2012-07-23 With more kids at home now here is a book for parents family members
and friends who want to maximize this time for a deeper learning experience for their children and themselves Free Range
Learning will encourage and excite those who want their children to reap important benefits from this period of sheltering in
place learning at home This is a book for anyone simply wanting some fresh ideas at this time or those who wonder if a
commitment to ongoing homeschooling might actually result in longer term benefits The material in this book is backed by
scientific and educational studies along with the testimonies of scores of parents and kids from around the world The work
here is applicable for young people from pre school through high school Studies indicate that adults who were homeschooled
are More likely to vote volunteer and be involved in their communities than graduates of conventional schools Read more
books than average More likely to have taken college level courses than the population as a whole Tend to be independent
and self reliant Children are naturally free range learners They build knowledge and skills naturally within the full spectrum
of their daily lives while observing exploring and pursuing their interests This book guides any parent or educator in assisting

Dwellers in the Age of Global Pandemic Eleazar S. Fernandez,2022-05-19 So many lives have been lost now and the death toll
still continues to rise because of the COVID 19 pandemic The poor and the marginalized not surprisingly have been
disproportionately affected The pandemic has exposed the fault lines not only in our healthcare but also in our political and
economic system a system driven by the pursuit of the bottom line profits If we are not only to survive but also thrive as a
global society the challenge of the coronavirus pandemic must lead us to explore ways of thinking being and dwelling that
promote our shared flourishing It is time to take personal stock about ourselves who we are where we have been and where
we are heading What can the pandemic teach us about ourselves What is it revealing about us and our situation How shall we
dwell together Do we want to wake up to a new and better tomorrow after this nighttime of pandemic That will largely

depend on the way we respond now Who are we becoming in this time of pandemic What daily practices are we doing as
embodiments of the new world we are anticipating *The New Banking Law of the Republic of Mexico Mexico, 1907*
