Jane Does Return English Edition:

A Return to the Common Reader Adelene Buckland, 2017-03-02 In 1957 Richard Altick's groundbreaking work *The English Common Reader* transformed the study of book history. Putting readers at the centre of literary culture, Altick anticipated and helped produce fifty years of scholarly inquiry into the ways and means by which the Victorians read. Now *A Return to the Common Reader* asks what Altick's concept of the common reader actually means in the wake of a half century of research. Digging deep into unusual and eclectic archives and hitherto overlooked sources, its authors give new understanding to the masses of newly literate readers who picked up books in the Victorian period. They find readers in prisons, in the barracks, and around the world, and they remind us of the power of those forgotten readers to find forbidden texts, shape new markets, and drive the production of new reading material across a century. Inspired and informed by Altick's seminal work, *A Return to the Common Reader* is a cutting edge collection which dramatically reconfigures our understanding of the ordinary Victorian readers whose efforts and choices changed our literary culture forever.

A Hundred Years of *The Secret Garden* Marion Gymnich, Imke Lichterfeld, 2012-11-20 Frances Hodgson Burnett published numerous works for an adult readership, but she is mainly remembered today for three novels written for children: *Little Lord Fauntleroy* (1886), *A Little Princess* (1905), and *The Secret Garden* (1911). This volume is dedicated to *The Secret Garden*. The articles address a wide range of issues, including the representation of the garden in Burnett's novel in the context of cultural history, the relationship between the concept of nature and female identity, the idea of therapeutic places, the notion of redemptive children in *The Secret Garden* and *Little Lord Fauntleroy*, the concept of male identity, constructions of Otherness, and the redefinition of Englishness. Film and anime versions of Burnett's classic, Noel Streatfeild's *The Painted Garden* as a rewriting of *The Secret Garden*, attitudes towards food in children's classics, and Burnett's novel in the context of Edwardian girlhood fiction and the tradition of the female novel of development.

the prospect of being able to go and to exercise its influence just about anywhere in the world also faced the danger of turning itself into a cultural nowhere The complex autoethnographic work of nineteenth century British novels was thus a labor to disorient or de globalize British national imaginings and novelists mobilized and freighted with new significance some basic elements of prose narrative in their efforts to write British culture into being Sure to provoke debate this book offers a commanding reassessment of a major moment in the history of British literature **Reading, Publishing and the Formation of Literary Taste in England, 1880-1914** Mary Hammond, 2006 Between 1880 and 1914 England saw the emergence of an unprecedented range of new literary forms which meant new relationships between books authors readers and classifications of taste Hammond uses previously unexamined archive material and focuses in detail on the working practices of selected publishers and distributors to make an original and important contribution to our understanding of the cultural dynamics and rhetorics of the fin de si cle literary field in England *Supreme Court New York ,*
