

The word "danger" is being personified.

Metaphor: Caesar and "danger" are two lions, but Caesar is the tougher and the meaner of the two.

4. What reason is Decius to give the senators for Caesar's absence from the senate-house that day? Be specific! (lines 64-68)

He simply will not come! i.e., he's Caesar, and he doesn't have to give a reason.

5. What is the real reason Caesar won't go? (lines 76-87)

Calpurnia had a dream in which a statue of Caesar poured out blood from dozens of places and which the Romans washed their hands with. She thinks this is a sign that something bad will happen to Caesar if he goes to the Senate House.

6. How does Decius interpret Calpurnia's dream, though? (lines 88-95)

Caesar's blood is helping revive the Roman citizens, and that Caesar himself will play a part in revitalizing Rome.

7. Name two reasons Decius then gives Caesar to convince him that he should come to the senate-house that day. (lines 97-109)

There are three:

They're going to give Caesar the crown; if he doesn't come, they might change their minds.

People will mock Caesar for making decisions based on his wife's dreams.

If Caesar doesn't say home, people will say that he's afraid.

8. Does Decius convince Caesar? (lines 110-12)

Film and Radio Discussion Guide, 1943 *An Introduction to Child Language Development* Susan H. Foster-Cohen, 2014-06-17 This volume introduces the field of child language development studies and presents hypotheses in an

accessible largely non technical language aiming to demonstrate the relationship between these hypotheses and interpretations of data It makes the assumption that having a theory of language development is as important as having reliable data about what children say and understand and it advocates a combination of both rationalist and more empiricist traditions In fact the author overtly argues that different traditions provide different pieces of the picture and that taking any single approach is unlikely to lead to productive understanding Susan Foster Cohen explores a range of issues including the nature of prelinguistic communication and its possible relationship to linguistic development early stages of language development and how they can be viewed in the light of later developments the nature and role of children s experience with the language s around them variations in language development due to both pathological and non pathological differences between children and in the latter case between the languages they learn later oral language development and literacy The approach is distinctly psycholinguistic and linguistic rather than sociolinguistic although there is significant treatment of issues which intersect with more sociolinguistic concerns e g literacy language play and bilingualism There are exercises and discussion questions throughout designed to reinforce the ideas being presented as well as to offer the student the opportunity to think beyond the text to ideas at the cutting edge of research The accessible presentation of key issues will appeal to the intended undergraduate readership and will be of interest to those taking courses in language development linguistics developmental psychology educational linguistics and speech pathology The book will also serve as a useful introduction to students wishing to pursue post graduate courses which deal with child language development

R U Medically Curious? Dr. Larry Romane, 2016-04-07 If you're medically curious then you'll love the treasure trove of information that Dr Larry Romane shares in this little book This longtime ER doctor has always been surprised at how little people know about medical matters but he knows that knowledge can be challenging to grasp when doctors call a heart attack an acute myocardial infarction and a simple toothache an anaerobic gingival abscess Romane cuts through that jargon to answer questions such as Why is everyone getting diabetes Are brand name medicines safer than generic versions Do you need antibiotics for upper respiratory infections He also shares valuable insights such as A pound of fat contains about 3 500 calories so cutting 100 calories every day for a year would take off about ten pounds X rays may cause future DNA changes in a cell leading to cancer decades in the future and only about five percent of dog bites get infected versus sixty percent of cat bites another reason a dog is man's best friend You'll be surprised by all the medical information you don't know some of it quite useful in *R U Medically Curious*
