**How to Master Hunting and Kill Any Animal** David a Osei,2019-12-11 Deer hunting is an interesting thing that reminds you of those golden old ages of 19th centuries where a handsome hunk well equipped with all hunting material rides on horse searching for his target animal either for the purpose of displaying his masculine powers or for enticing and wooing his lady love Sounds interesting and fascinating Yes it is But unfortunately gone are those days However even when deer hunting is carried out these days it happens to be an amusing and entertaining experience Successful deer hunting doesn t require much of a deliberated effort on the part of the hunter Rather if few simple tips and things are kept in mind it would certainly make it a triumphant adventure So now pack up your bags and get ready to play the exciting game of hunting deer without any extra ado Time is one of the chief factors to be kept in mind before leaving for deer hunting The best time to bag a deer are sunsets and sunrise This is because the lightning at these times confuses the sight of deer and you can see herd of this poor animal looking for its food for the purpose of filling its empty stomach These timings also ensure the safety of your teammates You can also start as early as possible before sunrise by hiding yourself in safe places This way you can easily pounce upon your required variety as sun rises without getting noticed by them     *Deer Hunting* Ed Mostoller,1994
