**Crossing Home Ground** David Pitt-Brooke, 2016-11-12 Like John Muir David Pitt Brooke stepped out for a walk one morning a long walk of a thousand kilometres or more through the arid valleys of southern interior British Columbia He went in search of beauty and lost grace in a landscape that has seen decades of development and upheaval In *Crossing Home Ground* he reports back providing a day by day account of his journey s experiences from the practical challenges dealing with blisters rain and dehydration to sublime moments of discovery and reconnection with the natural world Through the course of this journey Pitt Brooke s encounters with the natural world generate starting points for reflections on larger issues the delicate interconnections of a healthy landscape and most especially the increasingly fragile bond between human beings and their home places There is no escaping the impact of human beings on the natural world not even in the most remote countryside but he finds hope and consolation in surviving pockets of loveliness the kindness of strangers and the transformative process of the walking itself a personal pilgrimage across home ground *Crossing Home Ground* is a book that though rooted in one specific place and time will evoke a universal sense of recognition in a wide variety of readers It will appeal to hikers natural history enthusiasts and anyone who loves the wild countryside and is concerned about the disappearance of Canada s natural spaces Pitt Brooke s grassland odyssey is sure to become a classic of British Columbia nature writing

[A Research Guide to Cartographic Resources](#) Eva H. Dodsworth, 2018-09-22 The interdisciplinary uses of traditional cartographic resources and modern GIS tools allow for the analysis and discovery of information across a wide spectrum of fields *A Research Guide to Cartographic Resources* navigates the numerous American and Canadian cartographic resources available in print and online offering researchers academics and students with information on how to locate and access the large variety of resources new and old Dozens of different cartographic materials are highlighted and summarized along with lists of map libraries and geospatial centers and related professional associations *A Research Guide to Cartographic Resources* consists of 18 chapters two appendices and a detailed index that includes place names and libraries structured in a manner consistent with most reference guides including cartographic categories such as atlases dictionaries gazetteers handbooks maps plans GIS data and other related material Almost all of the resources listed in this guide are categorized by geography down to the county level making efficient work of the type of material required to meet the information needs of those interested in researching place specific cartographic related resources Additionally this guide will help those interested in not only developing a comprehensive collection in these subject areas but get an understanding of what materials are being collected and housed in specific map libraries geospatial centers and their related websites Of particular value are the sections that offer directories of cartographic and GIS libraries as well as comprehensive lists of geospatial datasets down to the county level This volume combines the traditional and historical collections of cartography with the modern applications of GIS based maps and geospatial datasets
