

LNL-XF

The Lenel OpenCard Reader series includes the most flexible readers in the industry. A single reader supports all applicable ISO standards (14443 and 15693), including the new U.S. Government PIV standard. All Lenel OpenCard Readers contain both 125 MHz proximity and 13.56 MHz contactless smart card support in one unit. Lenel OpenCard Readers provide compatibility with Lenel prox, HID proximity, GE/CASI ProxLite®, KsweeDO proximity, AVID proximity and most 13.56 MHz technologies (see chart on back). By offering 125 kHz and 13.56 MHz technology in one reader, Lenel protects customers from obsolescence in the transition from proximity technology to contactless smart card technology. Even if customers want to continue using proximity technology today, the new Lenel OpenCard Readers offer economical migration to the latest in smart card technology while accommodating their budget or timeline.

Product Applications

The mullion reader is perfect for narrow-nail mullion installations. It can be used as a sleek and unobtrusive unit, as well as for standard wall-mounted reader applications.

The mid-range reader is ideal for mounting on single gang US electrical boxes. The read range provided by this attractive package makes it the standard of choice for most wall-mounted installations.

The mid-range keypad reader is ideal for higher security applications where two-factor (card and/or PIN) authentication is desired. This reader may be mounted on a standard U.S. single gang electrical box, or used in any typical wall-mounted application.
