Sensation Writers Anne-Marie Beller, Tara MacDonald, 2015-09-07 Scholarly understanding of the Victorian literary field has changed dramatically in the past thirty years due in large part to the extensive recovery of sensation fiction and a corresponding recognition of that genre s importance in the literary debates trends and wider cultural practices of the period Yet until very recently work on sensationalism has focused on a narrow range of authors and works with Wilkie Collins Mary Elizabeth Braddon and Ellen Wood retaining the preponderance of critical attention This collection examines the fiction of ten women sensation writers who were immensely popular in the Victorian period but remain critically neglected today writers such as Annie Edwardes M C Houstoun Annie French Dora Russell and others The Victorian sensation novel was categorically associated with women by Victorian reviewers and this collection extends our current understanding of this sub genre by showing that female sensation writers were often sophisticated in their textual strategies employing a range of metafictional techniques and narrative innovations By moving beyond the novelists who have come to represent the genre this book presents a fuller more nuanced understanding of the spectrum of writing that constructed the concept of sensationalism for Victorian readers and critics The book was originally published as a special issue of Women s Writing

[Victorian Environmental Nightmares](#) Laurence W. Mazzeno,Ronald D. Morrison,2019-05-06 The twelve essays in Victorian Environmental Nightmares explore various environmental nightmares through applied analyses of Victorian texts Over the course of the nineteenth century writers of imaginative literature often expressed fears and concerns over environmental degradation in its wide variety of meanings including social and moral In some instances natural or environmental disasters influenced these responses in other instances a growing awareness of problems caused by industrial pollution and the growth of cities prompted responses Seven essays in this volume cover works about Britain and its current and former colonies that examine these nightmare environments at home and abroad But as the remaining five essays in this collection demonstrate environmental nightmares are not restricted to essays on actual disasters or realistic fiction since in many cases Victorian writers projected onto imperial landscapes or wholly imagined

landscapes in fantastic fiction their anxieties about how humans might change their environments and how these environments might also change humans      **A Victorian Anthology, 1837-1895** Edmund Clarence Stedman, 1895      A
