In my field of study, which is construction technology, I feel that there is so much that I can do to help my community. The reason is because, like my father who was in metal fabrication, I too would like to be able to provide opportunities for other Latin-Americans in my community. I would like to be able to give other Latin-Americans the same chance at living the dream in the United States; similar to the chance that I have.

I have learned from my parents two "laws": the law of learning and the law of giving. I believe the more you learn the more open you become for learning. I am convinced this University is a great fit for "the law of learning." My success and my accomplishments in the academe will herald the beginning of the fulfillment of my personal and professional goals.

On a personal level, I believe that my most meaningful achievements have helped me further these dreams of mine. Winning the President's Award for Educational Excellence and organizing community work in the Crop Walk: Walk to fight hunger are some of the things that I believe will aid in this quest. It is said that the one thing that nobody can ever take away from you is your education and that is the one thing that I plan to not only gain for myself but for others as well. I have learned from my parents the critical importance of the law of giving, and I am both attracted and committed to this model of community service, particularly that "students apply skills to effect social change."

While I personally believe that "there is no such thing as a free lunch" and that everything a person has in life must come from hard work and perseverance, I also believe in charity. I believe in helping others who do not have much in life. I believe in helping people regardless of their nation, race or creed. I believe in being a better person so I can best help myself and others around me. I believe that this academic environment is the best place for me to turn these beliefs into realities. I am fully aware of the significance of being considered for acceptance, and I am sincerely grateful for your time and consideration of my application.

Introduction to China Gilad James, PhD, *Introduction to China* is a comprehensive overview of the country's history geography politics culture and economy The book provides readers with an in depth understanding of China from its ancient

civilization to its emergence as a global economic power The author Professor Michael Dillon uses a clear and concise writing style that makes the book easy to read even for those with no prior knowledge of China The first part of the book covers China s geography climate and natural resources It explains how China s vast territory location and natural resources have influenced its history and development The second part of the book delves into China s history covering everything from its earliest dynasties to the modern era The author highlights the key events and figures that have shaped China s political economic and cultural landscape The book also addresses the important issues facing China today such as its relationship with the United States its environmental challenges and its internal political and economic reforms Overall Introduction to China is an excellent resource for anyone interested in gaining a deeper understanding of this fascinating and complex country

A Friendship That Lasted a Lifetime Gerhard Wagner, Gilbert Weiss, 2011-02-21 Scholarly correspondence can be as insightful as scholarly work itself as it often documents the motivating forces of its writers intellectual ideas while illuminating their lives more clearly The more complex the authors scholarly works and the more troubled the eras in which they lived the more substantial and potentially fascinating their correspondence This is especially true of the letters between Alfred Schutz 1899 1959 and Eric Voegelin 1901 1985 The scholars lived in incredibly dramatic times and produced profound complex works that continue to confound academics The communication between these two giants of the social sciences as they sent their thoughts to one another was crucial to the work of both men *A Friendship That Lasted a Lifetime* The Correspondence between Alfred Schutz and Eric Voegelin demonstrates that Schutz and Voegelin shared a remarkable friendship they first met as students in Vienna in the 1920s and found themselves great partners in discussion years later they were pushed out of Europe by Nazi pressure and went to work at separate American universities For twenty years they wrote each other developing their respective scientific works in that dialogue The letters bear witness to their friendship during the years they spent in exile in the United States and they document the men s tentative attempts at formulating the theories of lifeworld and gnosis associated with Schutz and Voegelin today The entire collection of 238 letters was printed in German in 2004 but this edited volume is the first to present their correspondence in English and offers a selection of the most important letters those that contributed to the thinkers theoretical discussions and served as background to their most significant thoughts Editors Gerhard Wagner and Gilbert Weiss do not analyze Schutz s and Voegelin s works in light of the correspondence rather they present the collection to create a framework for new interpretations *A Friendship That Lasted a Lifetime* takes a unique look at two major social scientists This volume is a valuable resource in the study of Voegelin s political philosophy and Alfred Schutz s contribution to American sociology and marks an important addition to the literature on these remarkable men Showing how scholarly discourse and the dialogue of everyday life can shed light on one another the book finally presents this correspondence for an American audience and is not to be missed by scholars of philosophy and sociology
