Institutional Change and Power Asymmetry in the Context of Rural India Amar Patnaik, 2018-10-08 This book explains how to bring about institutional change and foster new institutional structures. Institution building by resolving power inequities in a rural ecosystem in India and advocates the identification of an appropriate institutional champion to make this happen. The book develops a power asymmetry based framework and argues that a champion with the right attributes and the ability to convene people over a social issue can only succeed if he/she can resolve or reduce the deep rooted societal power asymmetries within that community. It also presents four case studies that indicate how such social change is typically spread over a long period of time

The SAGE Handbook of Social Science Methodology William Outhwaite, Stephen Turner, 2007-10-18 An excellent guidebook through different approaches to social science measurement including the all important route maps that show us how to get there. Roger Jowell City University. In this wide ranging collection of chapters written by acknowledged experts in their fields, Outhwaite and Turner have brought together material in one volume which will provide an extremely important platform for consideration of the full range of contemporary analytical and methodological issues. Charles Crothers Auckland University of Technology. This is a jewel among methods Handbooks bringing together a formidable collection of international contributors to comment on every aspect of the various central issues, complications and controversies in the core methodological traditions. It is designed to meet the needs of those disciplinary and nondisciplinary problem oriented social inquirers for a comprehensive overview of the methodological literature. The text is divided into 7 sections: Overviews of methodological approaches in the social sciences; Cases, comparisons and theory; Quantification and experiment; Rationality, complexity and collectivity; Interpretation, critique and postmodernity; Discourse construction; Engagement. Edited by two leading figures in the field, the Handbook is a landmark work in the field of research methods. More than just a cookbook that teaches readers how to master techniques, it will give social scientists in all disciplines an appreciation for the full range of

methodological debates today from the quantitative to the qualitative giving them deeper and sharpen insights into their own research questions It will generate debate solutions and a series of questions for researchers to exploit and develop in their research and teaching
