In Motion Tony Hiss,2017-10-18 In this extraordinarily wide ranging insightful and revelatory book Tony Hiss is the much praised author of The Experience of Places delves into a unique and instantly recognizable though previously undescribed experience that can happen to us when we travel a special understanding and ability that can leave us feeling exhilarated He illustrates how throughout human history from our ancestors walking upright for the first time to astronauts walking on the moon we have repeatedly availed ourselves of this seemingly elusive quality which he calls Deep Travel The sensation of Deep Travel can overtake us Hiss says whenever we tap into a sophisticated wide awake awareness we all possess With a wealth of examples from evocative accounts of his own journeys to celebrated travel writing across the centuries Hiss identifies and rescues this powerful capacity and sets out simple techniques for accessing it no matter where we are And this is only a jumping off point for an original and penetrating explanation of how Deep Travel radically alters our perception of not only where we are but also when we are by placing us in an extended present and how it acts as an open sesame to enlarge and enrich the world around us Going even further he investigates how we can remain absolutely still but travel in time itself as our horizons move backward to include layers of
