Some areas to be addressed in this section include: comparing the individual child to normative samples; assessing the tasks the child engaged in and the developmental appropriateness of these tasks; whether or not the child is meeting the criterion of academic standards; the specific interest areas of the child.
- Recommendations: Finally, you will make two or more suggestions to better assist the child in improving his/her skills, abilities, and progress. If you were the child's teacher, these suggestions would be provided to parents or guardians, teachers, a developmental specialist, school psychologist, other support staff, or administrators. Note: I will not provide a copy of this Case Study to anyone. Therefore, be clear and precise in this section.
