Evaluation Time Gail Vallance Barrington,Beverly Triana-Tremain,2022-08-30 This book is an accessible contemporary and comprehensive guide to the concepts and practice of evaluation Authors Gail Vallance Barrington and Beverly Triana Tremain integrate new approaches and concerns and classic frameworks with practical tools that readers can use to design evaluation studies They show how evaluators measure whether the planned and implemented interventions or services are achieving their goals and objectives while focusing on the questions most important to the community and organizations in which the evaluation takes place The book stresses the role of critical and evaluative thinking as well as self reflection and demonstrates the importance of context and equity in today s turbulent environment offering a new stance for evaluators to support global as well as local issues The ^AIInnovation Complex Sharon Zukin,2020-02-03 New York is rapidly changing in response to a new economy but startups tech workers and venture capital are not visible unless you know where to look for them in old industrial neighborhoods on the waterfront and at events like hackathons and meetups In The Innovation Complex Sharon Zukin shows the people and places that shape the urban tech economy making cities more successful for businesses yet in some ways less livable **Using GIS to Identify Opportunities for Improved Health in Urban Slums** Bikash Dutta,Manas Das,Sutapa Rath,Sutapa Das,2025-08-17 This book offers geospatial modelling techniques for the analysis of healthcare in poor urban neighborhoods and of the ways that residents of these neighborhoods make healthcare choices and cope with deprivation The authors use the case of Midnapore India to explore the overall health infrastructure

and the perceptions of residents of urban slums regarding the provision utilization and accessibility of the healthcare system through the application of geostatistics and geospatial techniques and modelling with an eye towards reducing inequalities The study described here can be used as a model for researchers planners NGOs policymakers and government authorities to conduct similar analysis of other low income urban neighborhoods Also this book may assist students in understanding the basic tools and techniques of applying GIS tools to study social problems

Understanding China through Big Data

Yunsong Chen,Guangye He,Fei Yan,2021-07-14 Chen He and Yan present a range of applications of multiple source big data to core areas of contemporary sociology demonstrating how a theory guided approach to macrosociology can help to understand social change in China especially where traditional approaches are limited by constrained and biased data In each chapter of the book the authors highlight an application of theory guided macrosociology that has the potential to reinvigorate an ambitious open minded and bold approach to sociological research These include social stratification social networks medical care and online behaviours among many others This research approach focuses on macro level social process and phenomena by using quantitative models to statistically test for associations and causalities suggested by a clearly hypothesised social theory By deploying theory oriented macrosociology where it can best assure macro level robustness and reliability big data applications can be more relevant to and guided by social theory An essential read for sociologists with an interest in quantitative and macro scale research methods which also provides fascinating insights into Chinese society as a demonstration of the utility of its methodology
