Geography H S Suggestion 2015 P T O:

Operation Bribes Ángel Viñas, 2024-11-29 This forensic study of recently opened documents in Britain's National Archives reveals for the first time the details of an officially unnamed secret operation authorised by Winston Churchill in 1940 to keep Spain neutral in the Second World War through the financial manipulation of Spanish generals. Viás focuses on the crucial roles played by the British ambassador in Madrid Sir Samuel Hoare, the embassy's naval attaché Captain Alan Hillgarth and hitherto unknown to Anglophone readers the Spanish businessman Juan March, perhaps one of the richest men in Spain at the time and a financial backer of the military conspirators sparking the Spanish Civil War in 1936. He identifies the likely recipients of the bribes, how they were paid and the influence they wielded on Spain's dictator General Francisco Franco, who together with his notorious foreign minister Ramón Serrano Suñer was minded to enter the war on the side of the Axis. With masterly analysis, this book places the bribes paid by Britain in the jigsaw puzzle of why, after all, Spain remained neutral. This volume is a pioneering and important contribution for scholars and students of Anglo-Spanish relations, Spanish Axis relations and wider strategic aspects of the Second World War.

The Routledge Handbook of Small Towns Jerzy Bański, 2021-08-16 The Routledge Handbook of Small Towns addresses the theoretical, methodical and practical issues related to the development of small towns and neighbouring countryside. Small towns play a very important role in spatial structure by performing numerous significant developmental functions for rural areas. At the local scale, they act as engines for economic growth of rural regions and as a link in the system of connections between large urban centres and the countryside. The book addresses the role of small towns in the local development of regions in countries with different levels of development and economic systems, including those in Europe, Africa, South America, Asia and Australia. Chapters address the functional structure of small towns, relations between small towns and rural areas and the challenges of spatial planning in the context of shaping the development of small towns. Students and scholars of urban planning, urban geography, rural geography, political geography, historical geography and population geography will learn about the role of small towns in the local development of countries representing different economic systems and developmental conditions.

Decriminalizing Abortion in Northern Ireland Fiona Bloomer, Emma Campbell, 2022-10-06 Northern Ireland stands out as having enacted historical positive change in abortion law from an almost complete ban in the 20th century to the decriminalization achieved in 2019. This book documents and analyzes how this historical change was achieved. Each chapter is written by those directly involved in the long fought battle to change abortion law, including those with personal experience of seeking abortions, activists, academics, legal experts, political actors, NGOs and volunteers. In this, the first of two volumes, contributions focus on the legislative landscape of the process, with particular emphasis on the importance of feminist legal work, law making influenced by the women most likely to be impacted by it.
