Geography Paper 1 Memo 2014:

The Drone Memos Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In **The Drone Memos** civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of *The Nation*

Red, White, and Black Robert L. Woodson, Sr., 2021-05-11 In the rush to redefine the place of black Americans in contemporary society many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize According to the new radical orthodoxy the United States was founded as a racist nation and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people Rejecting this false narrative a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity diversity of experience and poignancy Collectively they paint a vivid picture of black people living the grand American experience however bumpy the road may be along the way But rather than a people apart blacks are woven into the united whole that makes this nation unique in history Featuring Essays by John Sibley Butler Jason D Hill Coleman Cruz Hughes John McWhorter Clarence Page Wilfred Reilly Shelby Steele Carol M Swain Dean Nelson Charles Love Rev Corey Brook Stephen L Harris Harold A Black Stephanie Deutsch Yaya J Fanusie Ian Rowe John Wood Jr Joshua Mitchell Robert Cherry Rev DeForest Black Soaries Jr

How's Life? 2015 Measuring Well-being OECD, 2015-10-13 *How's Life?* describes the essential ingredients that shape people's well being in OECD and partner countries It includes a wide variety of statistics capturing both material well being and quality of life This third edition includes a special focus on child well being

Economic Aspects of Genocides, Other Mass Atrocities, and Their Prevention Charles H. Anderton, Jürgen Brauer, 2016-05-09 Alongside other types of mass atrocities genocide has received extensive scholarly policy and practitioner attention Missing however is the contribution of economists to better understand and prevent such crimes This edited collection by 41 accomplished scholars examines economic aspects of genocides other mass atrocities and their prevention

Chapters include numerous case studies e.g. California's Yana people, Australia's Aborigines, Stalin's killing of Ukrainians, Belarus, the Holocaust, Rwanda, DR Congo, Indonesia, Pakistan, Colombia, Mexico's drug wars, and the targeting of suspects during the Vietnam war, probing literature reviews, and completely novel work based on extraordinary country-specific datasets. Also included are chapters on the demographic, gendered, and economic class nature of genocide. Replete with research and policy-relevant findings, new insights are derived from behavioral economics, law, and economics, political economy, macroeconomic modeling, microeconomics, development economics, industrial organization, identity economics, and other fields. Analytical approaches include constrained optimization theory, game theory, and sophisticated statistical work in data mining, econometrics, and forecasting. A foremost finding of the book concerns atrocity architects' purposeful strategic use of violence, often manipulating nonrational proclivities among ordinary people to sway their participation in mass murder. Relatively understudied in the literature, the book also analyzes the options of victims before, during, and after mass violence. Further, the book shows how well-intended prevention efforts can backfire and increase violence, how wrong post-genocide design can entrench vested interests to reinforce exclusion of vulnerable peoples, and how businesses can become complicit in genocide. In addition to the necessity of healthy opportunities in employment, education, and key sectors in prevention work, the book shows why new genocide prevention laws and institutions must be based on reformulated incentives that consider insights from law and economics, behavioral economics, and collective action economics.

Handbook on Wealth and the Super-Rich Iain Hay, Jonathan V. Beaverstock, 2016-01-29 Fewer than 100 people own and control more wealth than 50 per cent of the world's population. The *Handbook on Wealth and the Super Rich* is a landmark multidisciplinary evaluation of both the lives and lifestyles of the super rich, as well as the processes that underpin super wealth generation and its unequal distribution. Drawing on international case studies, leading experts from across the social sciences offer 22 accessible and coherently organized chapters which critically analyse a range of topics including the legitimacy of extreme wealth from a moral-economic perspective, biographies of illicit super wealth, London's housing markets, how the very wealthy fly, the environmental consequences of super-rich lives, crafting immigration policies to attract the rich. Students and scholars studying a host of topics such as development studies, economics, geography, history, political science, and sociology will find this book eminently engaging. It will also be of great interest to public commentators, charitable organizations, and NGOs concerned with wealth and income distributions.

market Highlighting innovative approaches and relevant perspectives such as outsourcing trade openness and employment protection this publication is ideally designed for policy makers professionals practitioners graduate students and academics interested in emerging trends for labor market development

America's Moment Rework America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone

The Geography of Injustice Barak Kushner,2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history

The Tyranny of

the Straight Line Min-Kyung Lee, 2024-04-02 A revolutionary study of nineteenth century Parisian cartography and its role in shaping a modern conception of space Maps are rarely given the same attention as other print media or art forms in urban history Author Min Kyung Lee shows their rich potential in this lavishly illustrated study which brings together maps and other archival materials along with drawings and paintings She works across disciplines to examine mapping practices in the development of nineteenth century Paris and the transformative role that urban mapping had on the city's modernization Lee investigates Paris's formation as a modern city ultimately framing the practice of cartography as a catalyst for the emergence of new spatial and compositional theories Beginning with an examination of the emblematic urban plan that Napoléon III gave to the prefect of the Seine Georges Eugène Haussmann in 1853 Lee explores the significance of the map itself the means of its production through surveying the methods of its use and reception by architects engineers and administrators and its place in the visual culture of Paris's modernization At the heart of this exploration is a focus on orthography in architecture and the new quality of exactitude in modern mapping practices The precise grid structure of orthographic maps and plans evinced a sense of objectivity yet it was not without political context and social consequences as Lee demonstrates throughout

Ukraine Over the Edge Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine's divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev's Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass
