Sheffield,2018-11-19 Some students enter classrooms with an I dare you try to teach me look on their faces and others bounce into class excited to learn and anxious to please the teacher We know we can t automatically blame teachers or schools when students don t want to learn But we also know that sometimes teachers and schools don t always set students up for success and they don t always help them love what they re learning Why Kids Love and Hate School Reflections on Practice investigates some of the school and classroom practices that help students love school and some that send students in the opposite direction Intended for classroom teachers teacher education students and school administrators chapters in the book investigate a variety of topics how schools can build effective school cultures the struggle students encounter in learning practices of other countries that help students love school testing practices that cause students to hate school and much more Perfect for courses in Introduction to Education General Methods Management Assessment Educational Research Educational Administration Leadership Teacher Leadership Curriculum Theory Curriculum Development

**Reframing Teacher Leadership to Improve Your School** Douglas B. Reeves, 2008-05-15 Do you want your school or district to truly become a learning organization How do you foster lasting and meaningful change How do you avoid rejection of your new approach to teaching and learning If you've been involved in a school change effort you most likely have struggled with these questions To ease this struggle Douglas B Reeves has proposed a new framework to promote effective change efforts through teacher leadership In this book you will explore not only cutting edge research findings but also practical applications that can help improve student achievement and educational equity You can learn how to achieve lasting results as an educator and school leader You can learn from other teacher researchers how to infuse your classroom school or district with enthusiasm meaningful teaching improved results and greater satisfaction Even as you strive for innovation you naturally want to avoid having the next new thing become the latest old thing To achieve lasting change educators must embrace evidence based decision making rather than the fact free debate Reeves has found that educators more readily accept decisions they disagree with if they believe the decision making process was fair not based on opinion or hierarchy Reeves aims for you to help him build a network of teacher leaders based on this new evidence based framework that will foster resilient learning organizations Come along explore act and share Note This product listing is for the Adobe Acrobat PDF version of the book

**Neuroteach** Glenn Whitman, Ian Kelleher, 2016-06-20 Teachers are brain changers Thus it would seem obvious that an understanding of the brain the organ of learning would be critical to a teacher's readiness to work with students Unfortunately in traditional public public charter private parochial and home schools across the country most teachers lack an understanding of how the brain receives filters consolidates and applies learning for both the short and long term Neuroteach was therefore written to help solve the problem teachers and school leaders have in knowing how to bring the growing body of educational neuroscience research into the design of their schools classrooms and work with each individual student It is our hope that Neuroteach will help ensure that one day every student regardless of zip code or school type will learn and develop with the guidance of a teacher who knows the research behind how his or her brain works and learns
