It's Time to Complete Community College S. deBoef, 2018-02-02 Earning a college degree improves health and economic wellbeing Thus American taxpayers subsidize a majority of the cost of public colleges At least half of all college students in the U S today attend two year colleges yet fewer than half of these students achieve their educational goals This book written by an experienced community college teacher summarizes specific evidence based methods to improve student learning and completion This book summarizes student characteristics including socio economic status academic background work family commitments instructional methods of work pace grading procedures student practice opportunities and feedback to students institutional policies such as course scheduling teaching loads teacher training availability of student services commitment of administrators to using assessment to improve student learning outcomes If you are a college student parent of a college student college teacher administrator or concerned taxpayer you are invited to read this book and join this discussion It is unlikely that college completion rates will significantly improve without informed communities demanding institutional action

Defenders of Japan Garren Mulloy, 2021-12-01 Japan's navy is three times the size of France's and Britain's combined yet most people think it a defenceless nation This book unravels that paradox

White House Warriors John Gans, 2019-05-14 The NSC part star chamber part gladiator arena and part Game of Thrones drama is expertly revealed to us in the pages of Gans primer on Washington power Kurt Campbell Chairman of the Asia Group LLC Since its founding more than seventy years ago the National Security Council has exerted more influence on the president's foreign policy decisions and on the nation's conflicts abroad than any other institution or individual And yet until the explosive Trump presidency few Americans could even name a member A must read for anyone interested in how Washington really works Ivo H Daalder White House Warriors finally reveals how the NSC evolved from a handful of administrative clerks to as one recent commander in chief called them the president's personal band of warriors When Congress originally created the National Security Council in 1947 it was intended to better coordinate foreign policy after World War II Nearly an afterthought a small administrative staff was established to help keep its papers moving President Kennedy was as John Gans documents the first to make what became known as the NSC staff his own selectively hiring bright young aides to do his bidding during the disastrous Bay of Pigs operation the fraught Cuban Missile Crisis and the deepening Vietnam War Despite Kennedy's death and the tragic outcome of some of his decision the NSC staff endured President Richard Nixon handed the staff's reigns solely to Henry Kissinger who given his controlling instincts micromanaged its work on Vietnam In the 1980s President Ronald Reagan's NSC was cast into turmoil by overreaching staff members who led by Oliver North nearly brought down a presidency in the Iran Contra scandal Later when President George W Bush's administration was bitterly divided by the Iraq War his NSC staff stepped forward to write a plan for the Surge in Iraq Juxtaposing extensive archival research with new interviews Gans demonstrates that knowing the NSC staff's history

and its war stories is the only way to truly understand American foreign policy As this essential account builds to the swift removals of advisors General Michael Flynn and Steve Bannon in 2017 we see the staff's influence in President Donald Trump's still chaotic administration and come to understand the role it might play in its aftermath A revelatory history written with riveting DC insider detail *White House Warriors* traces the path that has led us to an era of American aggression abroad debilitating fights within the government and whispers about a deep state conspiring against the public

Homeschooling High School Shirley Erwee, 2014-08-28 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers They need information and answers to their questions And with the current educational and unemployment problems in South Africa young people need clear direction and guidance to help them achieve their goals In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system *Homeschooling High School* also challenges readers to rethink their values particularly the value they place on certification and to consider some unconventional or alternative paths to success In a clearly presented format the book includes advice on legal matters identifying appropriate courses sourcing study material tips on entrepreneurship financing tertiary studies and the testimonies of successful homeschooled graduates *Homeschooling High School* is a comprehensive guide to plotting a path through high school and beyond

Integrating Human Factors Methods and Systems

Thinking for Transport Analysis and Design Gemma J. M. Read, Vanessa Beanland, Michael G. Lenné, Neville A.

Stanton, Paul M. Salmon, 2017-07-26 Governments and road safety agencies around the world have either introduced or are considering safe system strategies a long overdue acknowledgement that different elements of the road system contribute to road safety outcomes Human factors approaches have a leading role here in both conceptualising the road system as a complex sociotechnical system and in providing practical approaches to support true systems based countermeasures This book illustrates the potential for integrating contemporary systems based human factors methods with modern day driving assessment methods such as vehicle instrumentation and driving simulation to understand and enhance performance in modern day road transport systems The book outlines why a fundamental paradigm shift is needed in the way these systems are designed and operated and illustrates how a wide range of accepted human factors approaches can be applied successfully to road transport to revolutionise the countermeasure design process The practical illustrations of these human factors methods are applied to a long standing road and rail safety issue rail level crossings where the road and rail systems intersect The final chapter of the book highlights the utility of the human factors approach to reducing road trauma and discusses future applications of the approach
